THE ARMY OF THE POTOMAC.

Our Forces on the North Side of the Rappahannock.

CAVALRY SKIRMISHING ON MONDAY.

The Enemy Driven to Brandy Station with Severe Loss.

Sharp Musketry Firing in the Vicinity of Rappahannock Station.

No General Engagement up to Yesterday Morning.

Reason of Gen. Meade's Withdrawal from the Rapidan.

A Forage Train Burned at Warrenton by Rebel Sympathizers.

Arrival of Wounded and Prisoners at Washington.

Washington, Tuesday, Oct. 13.

Parties who arrived from the front this morning say there was considerable skirmishing yesterday between the cavalry on either side, and that smart musketry firing was heard yesterday afternoon in the vicinity of Rappahannock Station. It is presumed here, by persons generally well informed, that the movement of Gen. Meade was, in fact, one previously decided upon, in case of certain contingencies, as is indicated by the sending to the rear, some time since, of certain articles of a cumbrous nature.

One hundred wounded from Gen. Kilpatrick's cavalry division reached here this morning. One hundred and thirty sick, from the same army corps, (the Second,) have also arrived. They were distributed among several of the hospitals.

A number of prisoners of war, captured near Raccoon Ford, on the 10th inst., have reached here from the Army of the Potomac.

It is represented that the fighting thus far has been purely, on our side at least, by cavalry and artillery supports of cavalry, the main army not having been engaged at all.

Last night, at Warrenton Junction, some rebel sympathizers set fire to a train of cars containing hay and grain, doing some little damage.

Passengers who arrived here from the front this afternoon, state that yesterday a reconnoitering party of the Sixth corps crossed the Rappahannock, went a short distance beyond, and returned toward night to near Bealton.

Another reconnoitering party skirted up the right bank of the Rappahannock yesterday afternoon, and returned to the vicinity of Rappahannock Station last night.

There was some skirmishing along the lines yesterday, but all was quiet through the night up to a early hour this morning.

The loss in Gen. Gregg's division of cavalry is said to be severe. The Thirteenth and Fourteenth Pennsylvania and Tenth New-York suffering most.

On Sunday night our forces crossed the Rappahannock, and on Monday morning two corps recrossed and drove the enemy to Brandy Station, with a severe loss in killed, wounded and prisoners on the rebel side. They then received an order to fall back, which they did in good order.

Gen. Buford, with his cavalry, was on the left, Kilpatrick was in the centre, and Gregg on the right. Gregg and Buford succeeded in holding the enemy in check on the right and left until 9 o'clock, when acting under orders they fell back on our main body, the purpose of the movement having been effected.

The crossing by Gen. Meade to the north side of the Rappahannock was made mainly at Kelly's Ford, and it was effected in admirable order.

Capt. Rhodes and Lieuts. Prentiss and Voss, of the First Rhode Island cavalry, were seriously wounded.

The *Evening Star* says: "The skillful manœuvre by which Gen. Meade checkmated his astute adversary, and, without loss of any sort to any appreciable extent, placed himself on the other side of Jordan, and in a position where he preferred to accept battle, seems to have considerably bothered the rebels, who do not seem inclined to fight unless with the Indian-like advantages of a surprise and an ambuscade. The change of position made by our army was effected without the slightest confusion, and the amount of stores destroyed or left behind beyond Culpepper would not make a car-load, all told."

The following officers wounded in the engagement on Sunday, arrived this morning from the Army of the Potomac: Lieut. Col. Crocker, of Gen. Pleasanton's staff, Dr. Forwood, U. S. A., Lieut. Chaffie, 6th U. S. Cavalry, and Capt. W. J. Aiken, 6th New York Cavalry.

SATURDAY'S FIGHT.

Bravery of Kilpatrick's Cavalry—Four Hundred Confederates Taken—Lee's Plans Defeated.

We clip the following particulars from the Washington *Star*, in reference to the fight of last Saturday:

On Saturday the rebel General Stuart crossed Robertson's River and captured nearly the whole of the One Hundred and Sixth New-York, who were doing picket duty, but the Fifth Michigan cavalry made a charge, and recaptured most of the prisoners. Soon after, A. P. Hill's corps passed our right flank, and we fell back to James City and held the rebels in check with artillery.

On Sunday morning our whole reconnoitering force commenced falling back toward Culpepper, our rear being covered by artillery. Gen. Buford's cavalry fell back, as it happened, faster than Kilpatrick, who brought up the rear, so that the latter was cut off by Stuart getting in his front, and on his right and left flanks. A charge was ordered, and Gen. Custer's brigade gallantly drove the enemy into a thicket of woods, from which they however recharged in larger numbers, and our cavalry then made a grand charge in their front and flanks, cutting their way through, and joined Buford.

Our artillery was brought into play during the day in covering our rear, and with terrible effect. In one instance the rebels charged upon one battery, (M, Second artillery,) when the cannoneers mounted their horses, repulsed the charge, and returned to their guns, and gave the retreating rebs canister, killing and wounding many of them.

In this combat our cavalry performed the unprecedented feat of making successful charges simultaneously in three directions.

Gen. Kilpatrick led the charges with reckless gallantry, cutting his way through several platoons of infantry drawn up in the road, in the midst of a fire from artillery on each flank.

On Saturday our loss was but slight, but yesterday, in killed, wounded, and missing, Gen. Kilpatrick lost about 150 men. Capt. Dodge, Acting Major 5th Michigan, was killed; Capt. Oliphant, of the same regiment, was wounded; Capt. Hastings, of the same regiment, is missing, and supposed a prisoner; Capt. G. M. Datcher, Aid to Gen. Kilpatrick, was slightly wounded; Maj. Pauldi, of 1st Michigan, and Lieut. Col. Sawyer, of 1st Vermont, are also slightly wounded.

Yesterday, about 400 prisoners, mostly of Gen. Fitz Lee's division, were brought into headquarters.

At 5 o'clock yesterday there was considerable skirmishing going on between the opposing cavalry and artillery, but it was thought that the enemy would fall back during the night.

About 2 o'clock to-day a train came down from Rappahannock Station, bringing about thirty-two wounded, mostly of the Michigan cavalry.

The report afloat that Meade was compelled to destroy a large amount of commissary stores on Saturday, to prevent them from falling into the hands of the enemy, are untrue. Soldiers, when about to leave a camping-ground, will invariably make a bonfire of all the camp rubbish; and thus it was that on Saturday night the camping-ground of the army to be vacated presented numerous fires, giving the idea of a pretty extensive conflagration, but, as already stated, very little of value was destroyed, and fifty bales of hay will doubtless cover the extent of our losses.

The idea held out by sensation reports afloat in town to the effect that Meade is retreating precipitately to Washington under pressure from Lee, following with an immense army, is absurdly erroneous, as those know who are aware how deliberately Meade is changing his front, to guard against any possible surprise from Lee, should he attempt a flank movement. Late reports from Richmond show that the idea is entertained there that Meade's army has been depleted to the extent of *four* army corps, for the reinforcement of Rosecrans, and it may be that Lee is manœuvering to ascertain if our army is really as weak as reported.

If he is acting upon any supposition of the sort, he may encounter a disagreeable surprise, and find that the Army of the Potomac is quite as effective as when it staggered him at Gettysburgh.

The supposition is that Lee designed moving a force through Thoroughfare Gap, and rumor has it that the enemy has already appeared there; but in this case rumor must be considerably ahead of the fact, and, in any event, Meade has the shortest line of march to Manassas, and can readily post himself so as to confront Lee wherever he may make his appearance—if, indeed, the latter is not already taking the back track, finding his plans defeated.

The following is the substance of information brought here by correspondents of the Northern Press:

"Gen. Meade's army has fallen back to this side of the Rappahannock, followed by Lee's army, which is in great force about half a mile from the southern bank of that river.

The enemy made a feint of moving up the valley on the Southern bank of the Robertson River, and our cavalry, under Buford, crossed at Germania Ford and took possession of the earthworks abandoned by them. When our force was all across the enemy came against Buford in great force, drove him across the river, without time to destroy the crossing, and pursued him to Rappahannock Station.

Kilpatrick, with a force of cavalry and artillery, which had made a reconnoissance near Madison Court-house, was cut off yesterday afternoon on the road to Culpepper by a portion of Ewell's corps, which was formed across the only road by which he could retreat in twelve ranks, with two regiments on each flank. Kilpatrick was compelled to charge directly into the *cul de sac* there made by the enemy's formation. He led the charge in person, telling his men they must do or die.

The cavalry cut their way through under a concentrated fire such as has hardly been experienced by our troops during the war, and probably his rear, with his artillery, retired through Culpepper. Kilpatrick's loss in killed and wounded amounted to 150.

Gen. Meade is said to have displayed good generalship in bringing his army back to the line of the Rappahannock. When the enemy made his feint of moving up the valley, Meade also made a feint of following him in force to attack him in the rear, massing his troops at Raccoon Ford for that purpose.

This drew back Lee's army, so that the intended flanking movement was frustrated.

Meade has brought off every wagon and all his stores to his new line."

DISASTER TO THE AFRICA.

She Strikes a Reef off Cape Race in a Thick Fog and Springs a Leak—Her Hull and Cargo Badly Damaged—No Lives Lost—Capt. Stone puts into St. Johns for Repairs.

St. Johns, N. F. Tuesday, Oct. 13.

The R. M. steamship *Africa*, from Liverpool 3d, *en route* to New-York, struck near Cape Race a 10 o'clock Monday night, and arrived here safely at 2 o'clock this Tuesday afternoon. The vessel is badly damaged.

SECOND DISPATCH.

St. Johns, N. F., Tuesday, Oct. 13.

The steamship *Africa*, in a dense fog, struck near Cape Race, at 10 o'clock last night. The ship was put about before she struck, but took ground fore, aft, and amidships, and remained on the rocks half an hour. There was a considerable sea on with a southerly wind. The ship was much damaged. The boats were got ready, but not launched. After one hour the ship floated, and the pumps speedily cleared the ship.

Capt. Stone then headed for Halifax, but afterward thought prudent to bear up for here.

The cargo is much damaged. The ship makes a deal of water.

THE WAR IN THE SOUTHWEST.

Cairo, Tuesday, Oct. 13.

The steamer *Albert Pearce*, from New-Orleans with a large cargo of sugar and molasses, has arrived.

The steamer *Southwestern* was fired into by guerrillas on Friday, a little below Helena.

Fighting is reported on the railroad east of Memphis on the 11th, but the result is unknown.

Gen. A. S. Lee, who was captured at Vicksburgh, had a force between Panola and Holly Springs, and it is understood he commands all the rebel troops in Northern Mississippi.

Richardson, with 1,800 men and six pieces of artillery, had been encamped near New-Albany, on the Tallahatchie River; but has moved back toward Pontotoc. It is understood they are to tear up the Memphis and Charleston Railroad, when Joe Johnston will move into West Tennessee, and make his headquarters at Jackson.

From California.

San Francisco, Tuesday, Oct. 13.

Money is in brisk demand, speculative investments in mining stock having apparently absorbed considerable capital for the time being.

The receipts of treasure since the sailing of the last steamer reach $2,000,000.

Atlantic currency exchange is nominal at the rate of 38@43 premium on Gold in New York.

Six hundred and fifty thousand dollars in New York bills, drawn towards the New Almada purchase, are in the market, somewhat unsettling exchange.

The rates of passage per steamer to-morrow are: Best first-class cabin rooms, 265; second cabin, 185; steerage, $135.

The Steamer Caledonia.

Boston, Tuesday, Oct. 13.

The British steamer *Caledonia*, which went ashore on Cape Cod nearly a year ago, and which was subsequently abandoned and sold as she lay on the beach, was finally floated off this morning, and is now being towed up to the city by the steamer *Charles Pearson*. The wreck was purchased on the beach for $14,000, and the purchasers will make a good thing by the speculation.

FROM CHARLESTON HARBOR.

A Rebel Torpedo Exploded Under the Frigate Ironsides.

Serious Damage Suffered by the Vessel.

What the Charlestonians Say About It.

Fear of a Demonstration by the Rebel Rams.

Inactivity on the Part of the Navy.

The steamship *Continental*, Capt. Marthman, from Charleston Bar Oct. 9, arrived yesterday. Our correspondent sends us the following important dispatch:

Special Correspondence of the New-York Times.

Morris Island, Wednesday, S. C., Oct. 7.

On Monday night the camps on Morris and Folly Islands were aroused by the sound of picket firing proceeding from off Cummings' Point. The troops were ordered under arms and every precaution taken to resist a supposed attack of the enemy. It appears the affair was something more serious than an alarm. At 9 P. M. a torpedo was discovered by the naval picket boats stationed off Sullivan's Island floating down the tide toward the fleet, and before it could be checked, came in contact with the frigate *Ironsides*, exploding under her bow and causing serious damage to the vessel—so much so that it is under consideration of Admiral Dahlgren to send her North for repairs. At the time the affair took place little could be ascertained of what had transpired by parties on shore, and it was only by the report of the musketry off Cummings' Point that even an inkling of a picket skirmish was arrived at. As far as can be learned no lives were lost on either side. The naval picket boats were, attacked by the rebels also in boats at about the same time the torpedo was discovered. The *Ironsides* was lying 1,000 yards from Sullivan's Island and pretty well in toward Sumter.

Gen. Gillmore took a trip to Hilton Head yesterday. He returns to Folly Island to-day.

It is thought the rebels may possibly make a demonstration on the fleet with their rams within a short time. This will doubtless be the case if the *Ironsides* is drawn off for repairs. Three monitors are away from the fleet—for what purpose it does not seem clear—and unless the Admiral keeps a sharp lookout the rebels will gain entire possession of the harbor.

Two "devils," recently towed from the North, are lying off Morris Island. They are intended to be used against the obstructions in the channel.

If it is intended to give the rebels a blow in this vicinity, something must be done immediately. What is wanted is a naval commander, and the sooner Government sends to Charleston Harbor a man fitted for the post, the better it will be for the country.

WHIT.

THE ATTACK ON THE IRONSIDES AND WHY IT FAILED.

From the Richmond Examiner of the 8th.

The report from Charleston is, that an attempt in the main unsuccessful has been made to blow up, with some kind of an infernal machine, the Yankee ship *Ironsides*. The failure is attributed to two causes—an insufficient amount of powder in the machine and its being ignited too near the water's edge. Though the destruction of the vessel was not effected, she may have been seriously damaged. When the torpedo exploded several feet in front of the Yankee gunboat in James River sheathing and planks were torn off, and many of her crew thrown overboard. Similar results may very probably have followed the explosion of the machine alongside the *Ironsides*.

Capt. Marshman, of the *Continental*, makes the following report of the occurrence:

"On the night of the 6th, the rebels sent down a torpedo attached to a raft from the city to the iron-clad *Ironsides*, lying at anchor off Fort Moultrie, which exploded under her bows, throwing a great volume of water on board, putting out all the fires killing Ensign Howard and wounding two seamen, but doing the vessel no damage. The man who had charge of the torpedo was captured, and taken on board the *Ironsides*. The *Ironsides* remained at anchor off the Moultrie House, the monitors doing picket duty off Sumter."

Passengers by the *Continental* report that three of the monitors had been disabled by the recent fire from Moultrie. The monitors were sent to Hilton Head for repairs.

The officers of the navy were daily expecting that Admiral Dahlgren would be superseded, and Farragut appointed in his place.

THE INJURIES TO THE MONITORS.

A correspondent who has recently visited the monitors under repair at Station Creek, South Carolina, says:

"We first went on board the monitor *Patapsco*. Her turret is indented all round by the heavy projectiles from the rebel forts; but not a single shot penetrated even a single plate of which the turret consists. The smoke-stack, however, is completely shattered. Balls that passed through have completely curled up the iron forming the smoke stack. From the *Patapsco* we went on board the *Weehawken*, which vessel was being improved by the addition at the bottom of the turret of an iron rim, five inches in thickness, and about fifteen inches deep. This improvement is being made in consequence of a piece of shell having been jammed between the bottom of the turret and the deck, preventing the latter from revolving, when the *Weehawken* was aground, at the time of the bombardment of Fort Moultrie. All the other vessels of the same class are to be furnished with a similar rim. These rims were brought in sections by the *Union*. The *Weehawken* was not hit so many times as the *Patapsco*, but we were shown a wound on her starboard side caused by a shot from Moultrie, through which the water is still slowly trickling, rendering a frequent recourse to the pump necessary."

Indiana Election.

Indianapolis, Tuesday, Oct. 13.

Election returns, as far as heard from in this State, for county officers indicate large Union gains. In this city the Union majority is 2,100, a gain of 600. In every county and precinct the reported gains are equally large.

Secretary Chase is expected to visit this city to morrow.

Newark, N. J., Election.

Newark, Tuesday, Oct. 13.

The Charter Election to-day, resulted in the election of Gen. Theodore Runyon, the Democratic candidate for Mayor, by less than 1,000 majority. The Democratic majority last year was about 1,800.

The Unionists have gained several Aldermen and School Commissioners.

COMMERCIAL AND FINANCIAL INTELLIGENCE.

St. Johns, N. F., Tuesday. Oct. 13.

The steamship *Africa* left Liverpool at 11½ A. M. of the 3d, and Queenstown the evening of the 4th.

The *Scotia* arrived at Queenstown at 5 A. M. of the 2d, and Liverpool early on the 3d.

The *Adriatic*, from New-York *via* St. Johns, arrived at Galway on the 4th.

The news by the *Scotia* of the defeat of Rosecrans created considerable sensation, and caused a rise of five per cent. in the Confederate Loan, but the advance was not fully sustained, and closed about 25 discount.

The *Times* thinks that Rosecrans was defeted by superior strategy rather than mere fighting, and says it is evident that the Federal troops contested the field, obstinately rallied when broken, and formed again and renewed the engagement repeatedly. They seem to have done all that bravery and determination could effect, but the greater skill of the Confederate Generals in combining the force which made the attack insured them victory.

The *Daily News* says Gen. Bragg's victory over Gen. Rosecrans is a striking demonstration of the wisdom of the new military policy of the Confederates in combining their forces to arrest the advance of the Federals. The honors of the battle belong to Gen. Bragg, but he must do more than he has hitherto done if the Confederate cause is to gain solid advantage from his sword.

The *Herald* looks on it as the most decisive battle fought in the Western States.

The *Morning Post* points to the continuance of the peculiarity of this great war that neither belligerents should be permitted for any protracted period to follow the path of victory.

The *Army and Navy Gazette* attempts to show the dangerous position of Rosecrans, but suggests that the Federal prospects may be brighter than the telegraph makes out.

As to Charleston, it remarks that the means of attack being superior to the defence, the place must fall.

A letter from Brest, dated Sept. 20, says the *Florida* has finished repairing in the Government dock and gone into the mercantile harbor, where she was refitting. She would go into the Roadstead in about a week, but would not be ready for sea for three weeks or a month. The Federal steamer *Kearsage* continued at Brest awaiting coals. It is pointed out that twenty-four hours must elapse after the sailing of one vessel before the other be allowed to depart.

The *Great Eastern* had been seized under an Admiralty warrant, by the owners of the ship *Jane*, which vessel she ran down off the Irish coast. There was an improbable rumor that the Cunard Company proposed to purchase the *Great Eastern*, to convey coals to various ports for their vessels. A general meeting of shareholders was held at London on the 2d inst. The position was referred to a committee, with instructions to report in ten days.

Miss Bateman, the actress, had made the most triumphant *début* at the Adelphi in London.

An inundation of the Nile destroyed part of the railway and would retard the shipment of cotton.

Paris journals continued to applaud the Declaration of Earl Russell, relative to the treaties of 1815, and believe it impossible for other Powers to refrain from expressing their sentiments on the attitude of Russia, in the abrogation of the acts of the Vienna Congress.

The *Press* says: "We believe France and England have decided to consider the treaties of 1815 no longer in force, and consequently have ceased to guarantee the possession of Poland to Russia."

Advices from Warsaw state that all the workmen employed on the official Russian journal in Warsaw have left the printing office. Several persons refused to accept the editorship of the journal.

A fresh proclamation has been issued by the National Military Chief of Warsaw, exhorting the inhabitants to have patience, and declaring that *gens d'armes* will redouble their vigilance. Arrests continue in Warsaw.

The French journals continue to publish flourishing accounts of the progress of French intervention in Mexico. Forey would embark for France Oct. 5.

The Minister of War would issue a circular ordering all soldiers, whose terms of service expired this year, to be immediately struck off the active lists and enrolled in the Reserves.

The Mexican Deputation arrived at Trieste on the 1st, and would be received at the Palace on the 3d.

The Paris Bourse was quiet—Rentes 65f. 95c.

The *Daily News* says American (Federal) securities of nearly all kinds were decidedly weaker on the 2d, owing rather to the rise in New-York exchange than the fall in prices there.

LATEST VIA QUEENSTOWN.

St. Johns, N. F., Tuesday, Oct. 13.

The steamship *Africa*, from Liverpool 3d, *viâ* Queenstown 4th, arrived here at 2 P. M. to-day, *en route* for New-York. She brings the following summary of news:

The Confederate loan had advanced one and a half per cent.

The Paris *Siècle* argues that if Stephens visits Paris with the expectation of procuring the recognition of the South, he will return disappointed. The time for that has passed, if it ever existed. The South, by arming the negroes, shows that its resistance is exhausted.

Maximilian had answered the Mexican deputation. He was ready to accept the throne on a free, spontaneous expression of the population, and by a guaranty for integrity in the independence of the country.

The Blockade Runners of Wilmington.

Beaufort, N. C., Thursday, Oct. 1, 1863.

Blockade running into Wilmington is as brisk as ever. On the 29th inst. a large sidewheel steamer, apparently deeply laden, steamed directly out from Wilmington, and passing through the squadron and by that little gunboat *Victoria*, which immediately gave chase, but owing to the superior speed of the blockade runner, she soon vanished from view. Blockade running in broad daylight is so frequent an occurrence here that it hardly dispels the monotony of sea life or prevents the officers from getting the *blues*. The class of vessels stationed here make the blockade a mere abortion and only a scarecrow. Many vessels of this squadron have been condemned, among them the steamer *Victoria*, a small schooner-rigged propeller, whose speed, in favorable weather, is six (6) knots. She was pronounced by a survey of competent officers to be an old rat-trap, and utterly unfit for the duties assigned her, and should she chance to get into an engagement with the enemy would destroy the reputation of the officers and men attached to her. With such vessels stationed here this port will never be closed, and the sooner the Government send fast steamers here, and an enterprising man to control affairs, the better. It is known here that a Confederate privateer is receiving her armament in Wilmington River, and when ready will steam out, without hindrance, to add *one* more to the list that is already destroying our commerce. We want fast steamers commanded by young volunteer officers familiar with the coast and inlets.

There is a fever broken out here called the ram fever. It materially effects the efficiency of the blockade and abruptly disturbs the slumbers of our officials. It is reported by reliable authority that the rebel iron-clad, assisted by the anglo-rebel steamers that have been converted into men-of-war, design making an attack on the blockaders with a view to their capture or total annihilation. So we may look out for stirring times in this quarter. U. S. N.

A Child Killed on the Hudson River Railroad.—George Schiver, a lad 9 years of age, died yesterday at the New York Hospital from the effects of injuries received on the 4th inst., by having been run over by a freight car of the Hudson River Railroad, at the Duane-st. depot. The deceased was in the act of jumping on to the front platform of the rear car at the time he received his injuries. Coroner Collin held an inquest upon the body.

There was a further advance of 3 ⅌ cent. to-day in Gold and Exchange. The sales of the former were under great speculative excitement in the Gold Exchange Room, early in the morning, from 153@154 ⅌ cent. The orders at the regular Stock Exchange Board carried up the price to 154½ ⅌ cent. Soon after the outside sales were made up to 156 ⅌ cent., but only for a few minutes, the market falling back to 154½@¼ ⅌ cent. At the Second Board the sales were at 155@154½ ⅌ cent., from which they subsequently receded on the Street to 153@153½ ⅌ cent. The transactions of the day were large. In addition to the demand at the close of last week for remittance to Europe, which, of itself made a strong market, the speculators for the rise have the advantage of a considerable *Short* interest made between 145@147 ⅌ cent., which has to be covered at the going rates, and also the advantage of sundry adverse military rumors to-day from Virginia and East Tennessee. The Custom-house demand for Gold has partially fallen off this week, and the importers, who were willing to remit on an Exchange of 155@160 ⅌ cent. on London, are disposed to hodl up at 169½@170 ⅌ cent, the rate corresponding with the price of Gold to-day.

There was a buoyant temper to the Share list early in the day, and an additional rise of ½@1 ⅌ cent. on nearly all the Railways, while among the miscellaneous Shares, Cumberland Coal went up 5 ⅌ cent., and heavy sales made at 40@41 ⅌ cent. The general advance in prices induced a large business at the First Board, but soon after the adjournment the bidding was not equal to the pressure to sell, and at the Second Board prices fell back to the figures of yesterday afternoon, and were even, in some instances, lower. There was a serious break in the price of Harlem Common Stock, equal at one time to 13@14 ⅌ cent. The Stock opened at 137 ⅌ cent., but soon fell to 133; then rallied to 134, and as quickly fell again on the Street to 123@124. At the Second Board the sales were at 126@125 ⅌ cent. The sales of Cleveland and Pittsburgh were generally at firm prices throughout the day, the Stock being an exception to the prevailing heaviness at the Second Board.

At 4 o'clock the following prices were made as compared with Monday afternoon; the general market leaving off unsettled and lower on most descriptions:

	Mon.	Tues.		Mon.	Tues.

The market for Money moves with much steadiness at 6@7 ⅌ cent. The Banks and Treasury Office hold to-day $39,000,000 United States Notes and nearly as much more in Gold and Silver. The division of the former is nearly equal, say $18,700,000 United States currency in Bank, and $20,300,000 in the Treasury Office. The Assistant Treasurer has no immediate occasion to call upon the Banks for another $3,500,000 installment on the late negotiation. His receipts to-day for the Popular Loan were $1,106,000. The subscriptions to this Loan with Messrs. FISK & HATCH, to-day, were $442,000; LIVERMORE, CLEWS & Co., $200,000, and at the Treasury Office direct, $250,000.

KNIGHT & SONS notice thus: "The market for the past week has been very active, and transactions have been heavy of all grades. The market opened buoyant on Wednesday, with a brisk demand for export and home use, at 11½c.@11¾c. This activity continued throughout Thursday and Friday, and on the latter day the market advanced ⅛c., and strictly prime, in barrels, brought 12c. on the spot, and to arrive within this week. On Saturday prices were firm, and holders sold very sparingly, at 12c.; some were asking 12¼c., at which price some large lots were disposed of. Yesterday and to-day, owing to rise in gold market and foreign exchange, the market was very firm, and prices advanced fully ⅛c.; prime lots, in hogsheads, brought 12¼c., and, with the real scarcity of strictly prime now in the City, holders are very firm, and but little is offering. The arrivals of Western and Eastern have been fair, but the stock is light of all kinds. Soap stock of all grades is in brisk demand for home consumption, as manufacturers are now laying in their Winter stock. Head Tallow and good body House Grease will bring 10¾c. Tallow Oil is nominal. The market closes firm for all grades of Tallow, and the demand for strictly prime is very brisk, at 12¼c.@12⅜c., and but small lots are offering at these prices. New-York Butchers' Association is selling at 12¼c. Price this day, 1858, 10c.; 1859, 10¾c.; 1860, 10c.; 1861, 8¾c.; 1862, 11½c. ⅌ ℔."

WOOL—The market continues quite brisk, with a lively inquiry from manufacturers, and prices steadily favor sellers, especially for domestic, which is quoted up 2c.@3c. ⅌ ℔. The week's sales included 450,000 ℔s. domestic fleece at 62½c.@80c., chiefly at 68c.@72c.; 215,000 ℔s. do. pulled, lambs' super and extra, at 58c.@75c., mostly at 65c.@70c.; 150 bales California, part at 35c.@42c.; 1,900 bales African, part at 30c.@37½c.; 1,650 bales Mestiza, part at 24c.@33c.; 1,050 bales Cape, at 36c.@42½c.; 350 bales Cordova, at 35c.@39c., chiefly at 36½c.; 200 bales East India, &c., at 30c.@50c.; 180 bales Australian, at 46c.; 100 bales Spanish, at 33½c.; 70 bales Lisbon on private terms; 10,000 ℔s. scoured Mestiza at $1@$1 02; 200 bales Chilian Merino, 100 bales Rio Grande, and sundry lots of other foreign, on private terms ⅌ ℔.... The Boston *Commercial Bulletin*, of this morning, says: "The past week has, indeed, been characterized by great excitement and competition on the part of buyers, influenced by the high range of gold and exchange, which is expected to operate as a check upon imports of the foreign staple, as well as by advices from the interior, which indicate that prices there are rapidly tending upward, and buyers upon the spot are operating at extreme figures. The transactions in this market, in domestic alone, cannot fall far short of a million pounds for the week, and for a single day (Tuesday) they foot up some half million. These large operations, with light stocks upon the market and the clip coming in slowly and by piecemeal, have had the natural effect to establish a higher range of prices, and we may quote an advance of 2c.@3c. upon fleece, and 3c.@5c. upon pulled, above the actual selling rates of last week. This advance, however, does not more than cover (and hardly that) that which has been made in the wool-growing districts during the same period, and prices are still relatively higher in the primary than in the Eastern markets—the former, contrary to precedent, taking the lead of and in a great measure regulating the latter. The sales of domestic for the week foot up some 900,000@1,000,000 ℔s., at a range of 68c.@76c. for fleece, and several fancy clips of choice Ohio at 80c. and upward. Included are lots of heavy Vermont and New-York State at 68c., Wisconsin at 70c., Michigan at 75c., and Ohio at 76c. There is not much doing as yet in Pennsylvania, which is nominally 75c.@76c. In pulled the sales have been considerable at materially improved rates, ranging at 75c.@82c. for common super and extra, the outside figure for a lot of Rochester extra. Billings' do. withdrawn from the market at 88c., now held at 90c. Several lots of Canada, amounting to 75,000 ℔s., have been taken at 63c.@70c., as to quality. In foreign, the sales have been some 3,500 bales of all descriptions, including nearly all the Cape in first hands at 37½c.@41c., and Mestiza at 31c.@33c. for old, and 33c.@35c. for the new clip; also 97 bales Australian at 39c.".... In Philadelphia, during the week, sales were made of 200,000 ℔s. domestic fleece at 65c.@80c., chiefly at 70c.@75c. ⅌ ℔, higher rates being now claimed there.... Sales in Providence, during the past week, 34,700 ℔s. Fleece, at 70c.@77½c.; 15,000 ℔s. Pulled, at 69c.@80c.; 2,600 ℔s. Foreign, at 36c. ⅌ ℔.

FREIGHTS—Are inactive and rates tending downward. For Liverpool the engagements were confined to 4,000 bbls. Flour at 1s. 6d.@1s. 9d. ⅌ bbl.; 7,000 bushels Wheat, in bulk, at 5d. ⅌ bushel; 325 bxs. Bacon at 30s., and 500 bbls Oil-cake at 15s. ⅌ ton. For London, 500 bbls. Flour, to fill up, on private terms. For Antwerp, 250 tcs. Lard and 1500 bbls. oil, on terms not ascertained.

NEWS OF THE DAY.

THE REBELLION.

There was further skirmishing on Monday on the north bank of the Rappahannock, from which it is evident that the rebel advance is up to the line of the river. MEADE'S army, as announced by us yesterday, is now north of the Rappahannock, but this movement was decided upon some time ago in event of threatening demonstrations on the part of LEE. It is represented that the fighting thus far has been purely on our side at least by cavalry, and by artillery supports, the main army not having been engaged. The loss in GREGG'S cavalry division is said to be severe, the Thirteenth and Fourteenth Pennsylvania and Tenth New-York suffering most.

Our correspondent at Morris Island, S. C., advises us of serious damage having been suffered by the frigate *New Ironsides*, on the night of the 6th inst., by the explosion of a rebel torpedo. The *Ironsides* was anchored at the time off Fort Moultrie, and the infernal contrivance was set adrift from the upper end of Sullivan Island, whence it floated rapidly down on the ebb tide, and struck her before she could be removed after its discovery. The explosion is described as having been terrific, dashing the water in a heavy volume on the deck, and putting out all the fires. Our correspondent states the damage to have been so great that Admiral DAHLGREN has it under advisement whether to send the vessel North for repairs. Unfortunately an officer was killed by the explosion, and two seamen wounded. Our picket boats were attacked also about the time the torpedo was discovered. Three monitors were reported to be absent at Hilton Head, and this disablement to the *Ironsides* will probably result in a postponement of the attack which was said to be fixed for last Sunday.

FROM EUROPE.

The arrival of the steamship *Africa* at St. Johns, N. F., from Liverpool on the 3d inst., puts us in possession of two days later news from Europe. The English Press comments freely on the recent great battles in Georgia, those which are ever willing to hail disaster to the Union arms regarding them as great victories for the rebels. The London *Daily News*, one of the staunchest friends of the North, while commending BRAGG'S policy of concentration, by which alone he has been enabled to check ROSECRANS, still insists that he must effect much more ere he can be said to have achieved any solid and lasting advantage. From France, the news is still unfavorable for Southern recognition. The Paris *Siècle*, an influential leading journal, intimates that if the rebel Commissioner STEPHENS comes to Paris expecting to procure the recognition of the South, he will meet with great disappointment, since the period for that event, if it ever existed, has passed by. The Confederates, in arming their negroes, acknowledge that their means of resistance are exhausted. The Archduke MAXIMILIAN has replied to the Mexican deputation, who have waited upon him with a formal offer of the throne, that he is willing to accept it, if tendered by a free, spontaneous and genuine expression of the people of Mexico, coupled with some guarantee for the integrity and independence of that country. In the Liverpool market, Cotton was buoyant, Breadstuffs steady, and Provisions quiet. Consols 93¾@93⅞. The Confederate loan had advanced 1½ ℘ cent.

The Cunard steamship *Africa* struck on a reef off Cape Race at 10 o'clock on Monday night last, during a thick fog, and remained aground half an hour. The sea was running high at the time, causing the ship to labor badly, and she sprung a leak, which made it necessary for Capt. STONE to put into St. Johns, N. F., for repairs. The cargo, as well as the vessel, is greatly damaged.

GENERAL NEWS.

Though there was nothing definite as to the result of the elections yesterday in Ohio and Pennsylvania up to the time of our going to press, yet the indications promised a success for the Union candidates. The returns from Pennsylvania almost all show slight Republican gains over the vote of last year, and in Ohio, so far as heard from, the gains are still more marked.

Rumors were prevalent yesterday that Gov. SEYMOUR had at length struck the long-meditated blow of removing the Police Commissioners—Ex-Sheriff JOHN KELLY and Ex-Senator WM. McMURRAY being confidently named as the successors of Messrs. ACTON and Acting Commissioner E. F. PURDY. This, if done, will be in disregard of the protest entered against such action by the two representatives of the City of New-York in the State Democratic Central Committee, and must be charged to the advice of Messrs. D. B. ST. JOHN, SANDFORD E. CHURCH, and the other candidates on the Democratic State ticket, who have been clamorous for such action ever since their nomination.

The Board of Supervisors yesterday received a communication from the Corporation Counsel giving the opinion, in answer to a resolution of inquiry, that the County is not responsible to the holders of mortgages on real estate destroyed during the riot, but is responsible to holders of mortgages on personal estate. The Comptroller reported that of the $5,530,956 69 appropriated during the year on County account, warrants had been drawn for $2,786,764 56 up to Oct. 1, leaving a balance of $2,744,192 13. The Board of Estimate and Apportionment, under the Police act, reported their estimates of police expenses for 1864 as follows: General expenses $47,100; New-York force, $1,760,520 67; additions to and alterations and repairs of station-houses in New-York, $7,000; Brooklyn force, $219,000. The Board adjourned to next Tuesday, at 2 o'clock P. M.

Yesterday, Deputy Provost-Marshal-General NUGENT, in pursuance of instructions from Washington, issued orders to the Boards of Enrollment of the Second, Third, Fourth, Fifth and Sixth Districts to prepare at once for a reënrollment. These are the Districts to the enrollment and quotas of which Gov. SEYMOUR made objections. Only 50 per cent. of the quotas claimed was drawn, the balance to await a reënrolment.

The brig *Harvest Queen*, Capt. HOLLIS, arrived yesterday morning, from Bermuda, after a passage of seven days. Capt. HOLLIS reports that the bark *Meg Merrilies*, Capt. DYE, before reported in distress at St. Georges, sailed from Algoa Bay for New-York on the 23d of July, with a cargo of wool. Had fair weather until the 11th of September, then experienced a tremendous hurricane; ship hove to thirteen hours under a small piece of sail, lashed to the weather mizzen rigging. A high cross-sea struck the ship, and broke on board, washing away all the crew, three of whom were drowned—ANTONIO FRANCISCO, the cook, ROBT. RUSSELL, a seaman, and ALFRED CUBA, a boy. After pumping all night had five and a half feet in the well. The main and mizzen-masts being gone, got up a jury-mast, and arrived at Bermuda Sept. 18.

Advices from San Domingo to the 16th ult. have been received at Boston, by the arrival of the schooner *Freeman*. The rebellion is reported to have terminated in the entire success of the Spanish troops. The island is reported to be unhealthy, several of the *Freeman's* crew having died of yellow fever.

In the Court of Oyer and Terminer, JAMES GALVIN, indicted for arson, was found guilty of arson in the third degree, and sentenced to four years' hard labor in the State Prison.

THOMAS McCOUSKY, indicted for riot, and who pleaded guilty to the indictment, was sentenced to the Penitentiary for two months.

There was much excitement in the Gold Market yesterday forenoon. Sales as high as 155@156 per cent., closing at 152@152½ per cent. Exchange on London 169½@170 per cent. Stocks buoyant in the forenoon, but dull at the close of the dealings, after losing most of the decline made at the First Board. The demand continues active for the Popular Loan. Sales yesterday in this market $1,106,000.

An active business was reported in Breadstuffs yesterday, which generally advanced early in the day, but closed quite heavily. The Provision trade was unusually brisk, especially in the line of Pork and Lard, which were much dearer. Whisky was dull, and closed decidedly lower. Cotton moderately active, at rising prices. Hay, Hops, Leather, Metals, Salt, Spices, Tallow, Wool and Tobacco were selling freely. Sugars were in fair request. Teas were more sought after. The Freight market was very quiet.

The Live Stock markets are supplied with 5,547 bullocks, 657 calves, 16,221 sheep and lambs, and 22,465 hogs. These numbers, though seemingly large, were barely enough to supply the demand, at advanced rates, and business was lively in each department. The weather has been all that stock men could desire, and speculators drove a thrifty trade, buying at old and selling at advanced prices....Beef cattle were in good demand, and sold ½c. higher than last week, a few of the best at 11c. ℘ lb, estimated dressed weight, but generally at 10c.@10½c. for fat cattle, and 8c.@9c. for medium to fair steers, with a large number of very poor animals at 7c. The market averaged over 8½c., and the 4,224 at Forty-fourth-street were all sold. .Sheep are selling well at an advance of near 25c. ℘ head, fat lots bringing 5½c., and fair Sheep 5¼c. ℘ lb. Lambs are worth 7c.@7½c. ℘ lb....Live Hogs have advanced ¼c.@½c. ℘ lb., and all but poor trash are selling rapidly. Fat corn hogs command 5½c., and still fed 5¼c. ℘ lb.

Gen. McClellan and the Pennsylvania Election.

Gen. McCLELLAN, who was so slow in the military field, is rather faster in the political. We have at last a dash from him—a regular slap-dash. At his retreat in New Jersey, he learns from "a reliable gentlemen" that there is danger that the Copperhead line will not come up to the scratch; and he no sooner hears of it than he speeds, as he never sped before, to the rescue. The lightning could not outstrip him; or, if it did, it was only to carry the message that Gen. McCLELLAN was only a little behind, and that "he regards the election of Judge WOODWARD, as Governor of Pennsylvania, to be called for by the interests of the nation." The tidings reached Philadelphia just as the sun was descending beyond the Schuylkill—thirteen hours and three quarters, by the best watches, before the opening of the fight. The shades of night, we understand, were used, to the best purpose, in working the dirt. The engagement commenced with sunrise, and lasted through the day, with terrible effect, we hear, upon the followers of Judge WOODWARD. They are routed, it is said, horse, foot and dragoons. Gen. McCLELLAN, it is expected, will reach the field in person to-morrow.

It is, indeed, somewhat singular that Gen. McCLELLAN, who has been so stoical regarding his military credit, should be so exceedingly sensitive concerning his political repute. He submits unmoved to the severest, and, if we are to believe his friends, the falsest statements concerning his military career, without making a sign; yet it is no sooner given out that he is in favor of the reëlection of a Governor who is a friend of the Administration, than he is off like a shot to put down the lie. It would seem that the General can stand anything but the suspicion that he has parted company with the Copperheads. It is manifestly an object of prime concern with him to keep himself identified, as completely as possible, with the men who are not warring against the rebels, but quarrelling with the constituted authorities of the Government. Of all the score or two of Major-Generals of the United States, in service and out of service, there probably is not another one, who, whatever his former political associations, would have treated as a slander to be publicly repelled, a story that he was for sustaining the Executive which gave him his commission. Maj.-Gen. McCLELLAN has this peculiar distinction. Whether it be owing to resentment at his displacement from the command of the Army of the Potomac, or to an ambition of being made, as has been talked of, an Anti-Administration candidate for the Presidency, we shall offer no conjecture. His motives are known only to himself. But we do say that it is not conduct which would become a true soldier in his peculiar position.

Gen. McCLELLAN, in his letter, represents himself as bound to favor Judge WOODWARD by "the principles of humanity and civilization," respect for "private rights and property," and fidelity to the great objects of the war, which he specifies to be "the restoration of the unity of the nation, the preservation of the Constitution, and the supremacy of the laws of the country." Now, if this means anything, it means that the Administration of President LINCOLN is unfaithful to those principles and objects. If he thus believes, we should like to know when the conviction first dawned upon him? Was it before or was it after Nov. 5, 1862, on which day he received an order from President LINCOLN to turn over his command to Maj.-Gen. BURNSIDE? If it was before, what words are strong enough fitly to reprobate the man who would lend himself to the official carrying out of a policy which he saw was hostile to civilization, to humanity, to private rights, to the laws, to the Constitution, to the Union. If his enlightment did not come until after that date, why was it so long delayed? The preliminary Emancipation Proclamation had been issued many weeks previous; the Confiscation bills, and the bills against the rendition of fugitive slaves, had been passed months previous; and summary arrests of disloyal persons had been made from the beginning of the war. In respect to those arrests, Gen. McCLELLAN had himself, more than a year previous, not only cheerfully but zealously engaged in the boldest and the most questionable act of the kind that has ever been performed even up to this day—we mean the arrest of the members of the Maryland Legislature. It appears from official correspondence, just published, that Maj.-Gen. McCLELLAN wrote from Washington to Maj.-Gen. BANKS, in Baltimore, to "arrest the whole party, and be sure that none escape," and took occasion to enforce his directions with the declaration that "if this be successfully carried out, it will go far toward breaking the backbone of the rebellion." Now, if Gen. McCLELLAN was so long in attaining his present perceptions of "private rights," and the "rights of property," and "the supremacy of the laws," and "the principles of humanity," and all that, how are we to account for it? Was it from mental dullness of apprehension? Was it from sluggishness of the moral sense? Was there anything in his being unhorsed and sent to Trenton that would naturally sharpen his faculties?

Really, we think there is much here that requires explanation. No fair-minded man can help wondering that during the fifteen months Gen. McCLELLAN was in high command, he should, without one word of protest or complaint, have been so forward to serve the Executive in its complete development of a policy; and that yet, during the eleven months he has been out of command, he should have sought to make that policy a justification for his turning against the Executive and attaching himself to its worst enemies. There is no possible escape from the conclusion that there is some strange deficiency here, either in mind or in heart; that there was not the understanding seasonably to comprehend the policy of the President when it was plain to everybody, or not the moral resolution to separate from that policy. This dilemma is complete in itself, even allowing the perfect honesty of his present language, and that it was not dictated either by overweening ambition or low-lived resentment.

The letter, as a political venture, has failed wretchedly. With all its specious phrases, and all the fancied prestige of the name attached to it, it has not saved Judge WOODWARD from an inglorious defeat. Gen. McCLELLAN has thus openly joined the side of faction in the very hour when the people were bracing themselves to overwhelm it with patriotic indignation. He has gratuitously linked himself to the fortunes of a party which was just about to be prostrated never to rise again. He seems to be persecuted by an evil fate in politics as in war. There is no help for him. His case is hopeless.

Our Political System—Its Advantages and Dangers.

DE TOCQUEVILLE was the first to call attention to the enormous gain to humanity that would result from the success of the political experiment which we were making on this continent, from the single fact that it would accustom great and powerful communities to submit their differences to judicial arbitrament, and would make it a point of honor with them to abide by legal precedents, instead of resorting to the sword. To know what this Federal system of ours, if it can only be perpetuated, will save the inhabitants of this continent in money and bloodshed, we have only to study the history of Europe during the last six centuries. We do not mean to say that it is probable that, without the Union, we should have here a faithful repetition of all the horrors through which Europe has passed since the Crusades, because the advance of civilization and the stronger hold of the precepts of Christianity on men of all classes, would give our wars a tinge of gentleness and humanity by which those of the Old World were not marked until our day. But we should have among us in full activity the very cause which has led to all European wars since the close of the Fourteenth century—the fears of the smaller States of the predominance of the larger ones, expressed in the struggles on behalf of what is so well known as "the balance of power." Once cut the States loose from each other, or cut the Union up into several Confederacies, and you call into play the very passions to which the world owed the Thirty Years' War, the wars between LOUIS XIV, and WILLIAM III., the war of MARLBOROUGH, the war of 1756, and the wars of the French Empire. You rouse between each political community the spirit of hostile rivalry; the love of domination among the strong, and the fear of conquest and oppression among the weak. The larger States would find in their strength and resources a justification for seeking to extend their territory; the smaller ones would find in their weakness a fair excuse for entering into combinations for self-defence, and even in seeking safety in foreign alliances. There would be incessant intrigue, jealousy, and recrimination, and, as a general consequence, incessant hostilities, or—what is almost as fatal to prosperity—incessant fears of hostilities. Any arrangement which saves all this, let its imperfections be what they may, is certainly worth all the sacrifices which any one generation can make for it.

The fact that the establishment of the Southern Confederacy would be the first step in a process which would result in leaving us precisely in the condition of European nations, with our "balance of power" to maintain, has of course been the strongest reason in the minds of most people for wishing to resist it now till the last extremity. There are some, however, at home, and among the friends of the North in Europe a very large number, who are for letting the South go now, in the belief that the North will be sure to absorb it at a later period, when weakened by internal dissensions and by the canker of Slavery. If there ever was any force in this argument, it has lost it all by the French invasion of Mexico. The intrigue which is now going on in Paris for the recognition of the Confederacy, for the purpose of furnishing a buffer to stand between the United States and the new Empire, is a direct and formal introduction on this continent of the great European apple of discord. LOUIS NAPOLEON, if he recognizes the South or intervenes in its favor, will do so on behalf of "the balance of power;" and the South, in seeking his alliance, has the very same object in view. Both of them wish by combining their strength to keep the United States in check.

Suppose the scheme to succeed, and the field that is opened up on this continent for diplomatic intrigue and military adventure far surpasses any that has ever greeted the eyes of European politicians. In Europe the differences of race, and language, and religion, and ignorance, the immobility of the mass of the people, and ages of non-intercourse, have sharply defined the limits of the various nationalities, and surrounded the work of annexation or absorption with enormous difficulties—as the first NAPOLEON found to his cost. But here there are still States on States to be created in a pathless wilderness, and by a population singularly devoid of strong local attachments, and singularly alive to the excitements of change and novelty. To a man who loves to create political combinations, carve out new States and shape national destinies, there could not be a more tempting field than the great Southwest, just as it is; and the greatest schemer of the age has his eye upon it, and his foot in it, and if we let the busy brains of the South enter into his service, we venture to predict a series of intrigues, complications, wars and disturbances on this continent, the history of which will make RHYMER'S *Fœdera* seem light reading, and make our posterity wonder that even the great negro question should ever have been thought heavy or tiresome. And we may fancy with what ardor the philanthropist of the twenty-first century would go forth to his labors, in the presence of the fact that the greatest, most promising attempt ever made to secure human happiness by political institutions had ended in producing in the New World a repetition on a gigantic scale of the strifes and jealousies which time out of memory have filled the Old one with blood and tears.

Our City Democracy.

There is insurrection in Mozart Hall—insurrection in Tammany. The Faubourg St. Antoine of the Democratic party is arming itself against the Faubourg St. Germain, and of the issue there can be no doubt. The snobs of the St. Germain will go to the wall. The working, voting, victory-winning masses of the party have never yet been defeated. Already the tocsins are pealing from every political steeple, and barricades are being made of City railroad cars across all the main avenues leading to power and place.

On two or three main points connected with local politics, the great masses of the Democracy are united with a zeal and unanimity never before witnessed. The disgraceful coalition based on an equal division of the spoils, will be overthrown. The independence of the Judiciary will be maintained, and Judges of good character shall not be punished at the bidding of individual corruptionists whom they may have offended. The "close corporation" system of party management, now in vogue, will be broken down, and the honors and rewards of the party thrown open to the competition of industry, energy and talent.

So vast is the disaffection amongst the rank and file, both of Mozart and Tammany, that "machine" nominations this Fall are already quoted below par, and will soon be entirely out of the market. Numerous and powerful leaders are organizing the people in all the wards and districts, and with a coalition of the forces thus called into coherent existence, there can be no such word as fail. All new parties are honest and put forward good men. It is upon the old and decaying "machines," that the fungus-growth of corruption and lobby-agency is developed.

The new men are seeking power and position, and are, therefore, willing to offer inducements and make concessions to the people. The old parties, rioting in ill-gotten plunder, follow the beaten track which in calmer times has so often led them to success. They are like gorged hyenas, mumbling the "bones" already in their possession, and grumbling at whatever tends to disturb their digestion. Their cry to the new men is: "Let us alone; let us gorge; let us sleep; let us grow fat. Your plans of reform only puzzle and distract us. We have our City Railroad shares; we have our other jobs; we are growing rich, and are well satisfied. Honest and independent Judges are an unmitigated nuisance. We want men that we can use; men that we can approach in cases that touch our pockets. We want men who are human in their little frailties. Men like ——, but you know their names."

To all this the new men answer: "These are revolutionary times. While matters jogged along easily, the people did not meddle much in politics. They allowed the 'machines' to control them, and voted at the bidding of certain recognized party leaders. But now everything is different. All orders and ranks of men have been compelled to think. We examine your claim to leadership and find it not merely an imposture, but a swindle. Your power is based on corrupt combinations made with men whom you pretend to oppose. Your prominence has only been manifested in schemes of spoliation and lobby practice. You are in no sense leaders of the people; and we spurn your commands, satisfied that no good motive prompts them."

To speak by name of the various prominent Democrats who have thrown themselves, heart and soul, into these new reformatory movements, would be invidious if only a few were mentioned, and would occupy columns if all the names were recited. Suffice it to say that the very best men of the Democracy are zealous champions on the popular side; and that they profess their entire willingness to act in harmony with all organizations actuated by a desire to secure good men as candidates at the forthcoming November and December elections. When rogues band themselves together for vile purposes, it is the duty of honest men to drop all minor differences and organise to defeat them. With prudence governing and concentrating the various opposition elements next month, the Tammany-Mozart coalition for the spoils may be overthrown with perfect ease. This coalition has rankling within itself distrust, suspicion, mutual hatred and jealousies. It is only held together by that powerful ligament, a hope of securing the spoils; and with this hope once destroyed, or even weakened, as is being done now, by an active and widespread organization of insurrection amongst the rank and file of the party, the unholy alliance will dissolve itself into thin air, and disappear amidst the execrations of the people. The "bayonets" have long since "learned to think." It is now the turn for the "ballots" to do their share of independent brain-work.

THE RECORDER.—Recorder HOFFMAN, as our readers were informed yesterday, was renominated to his present office by the Union County Convention on Monday night. As he will also receive the nomination of Tammany, there is no doubt of his election. This is a deserved honor to one of the ablest Judges and most upright men connected with our judiciary. His course during the riot trials gave him a wide reputation, but it was only consistent with his established character, and with all his past career. It has been in contemplation by our citizens for some time to present him with some testimonial of their appreciation of his services; but the best testimonial to him, and the most creditable to the City, would be a unanimous reëlection to the office he has graced by his virtues, abilities and learning. It is also a credit to the Union Convention that they nominated a gentleman, who, while so deserving on genera grounds, is and has been an adherent of the Democratic Party.

REBEL VICTORIES.—The Richmond *Examiner* is very anxious to know why the innumerable victories won by the rebels have all been barren. The victories "end with comparative lists of killed and wounded, and with an inventory of captures; there is no territory regained, no enemy dispatched; it is thought sufficient to have accomplished the death of several thousand Yankees and the taking of a certain number of small arms, colors, and other trash of the battle-field." We should think the rebels would begin to doubt the *reality* of their victories; for our "*defeats*" have ended in "territory regained"—as witness the carrying of our arms from Northern Kentucky to Northern Georgia—from Cairo to the Belize; our "defeats" have ended in "dispatching armies"—as witness the Vicksburgh army of PEMBERTON, the army of JOHNSTON, the army of PRICE, and others. The reason why Confederate victories have been barren is that most of them have *not* been victories.

THE NATIONAL FINANCES.

Copperheads and their Prophecies—Comparative Lightness of the Government Expenditures—Anxiety of Foreigners to Invest in United States Bonds.

Special Dispatch to the New-York Times.

WASHINGTON, Tuesday, Oct. 13.

The National debt is far less in amount than the enemies of the Government hoped it would be on the 1st of October. They had prophesied that we would owe three thousand millions of dollars before the end of the second year of the war. Government enters upon the third year of the war, with a debt of only twelve hundred and twenty-two millions seven hundred and fifty thousand dollars. The increase of this debt, hereafter, will be moderate, the Government being abundantly supplied with muskets, cannon and clothing.

In a speech last night at Armory Hospital, the accomplished Register of the Treasury, Hon. L. E. CHITTENDEN, said that, while Northern Copperheads were predicting bankruptcy and ruin in our monetary affairs, foreign capitalists were only too anxious to invest in government securities. Yesterday $350,000 worth of United States bonds were issued to foreign brokers, and Government has money now on hand with which to pay the entire army for the month of November, which money was furnished by foreign capitalists

Admiral Milne at Washington.

WASHINGTON, Tuesday, Oct. 13.

Admiral MILNE and suit and Lord LYONS, attended by the Secretary of State, and with an escort under Gen. HEINTZELMAN, yesterday made a tour along the fortifications on the south side of the Potomac. They visited the Contraband camp, and informed themselves of the principles upon which it is concucted. They witnessed also a drill of the colored regiments.

The distinguished party also visited the convalescent camp, and carefully examined all its excellent arrangements. A fine collation was given them by the officers in charge of the convalescents. Admiral MILNE left town last night, having won the highest respect and esteem, as it is understood, of the President and all the authorities of the Government.

From San Domingo.

BOSTON, Tuesday, Oct. 13.

The schooner *Freeman*, from San Domingo City, Sept. 16, at this port, brings intelligence that the San Domingo rebellion is over. When the vessel arrived at that port there was much excitement, and there had been fighting at Port au Platte. The Spanish troops were finally completely successful, and at the latter place the insurgents were put down, and quiet had been restored. It was quite unhealthy at San Domingo. Several of the crew of the *Freeman* died on the passage, and Capt. CASS stopped at Provincetown in feeble health.

The China and Anglia Outward Bound.

ST. JOHNS, N. F., Monday, Oct. 12.

The steamship *China*, from New-York for Liverpool, passed Cape Race at 9 A. M. of Sunday. News from New-York to Saturday evening was put on board.

The steamship *Anglia*, from Boston, left here at 1 o'clock Sunday morning, for Galway. She did not come into the harbor, and a number of packages of important and much needed material for the Newfoundland Telegraph line were carried to Galway.

Amusements.

MUSICAL.—At the Academy of Music, "Ione, or the last days of Pompeii" will be given this evening with the original cast, including MEDORI, SULZER, MAZZOLENI, BELLINI, BIACHI, and others. This opera was the great success of last season, and will undoubtedly draw an immense audience.

To-morrow, (Thursday,) RIGOLETTO will be given at the Brooklyn Academy of Music.

THE PARK THEATRE, (BROOKLYN.)—After a week's successful run, Mr. HARRISON has withdrawn the charming play of "The Pride of the Market," in which Miss IRVING and Mr. LENNOX have won golden honors and popular favor. To-night, "John of Paris." will be given with a good *caste*, Mr. LINGARD playing the leading *rôle*. The Theatre is doing well, its seats always being well filled, and its business increasing as the liberality and good taste of the management deserve.

FROM PARIS.

The Confederate Fortunes in France Failing—Maximilian and Mexico—Slidell and Napoleon—The South and its Slaves—Proposition of Hayti to Recognize the Confederacy—Bluster of a French Organ—The Alabama—The Polish Question.

PARIS, Tuesday, Sept. 29, 1863.

The condition of the Confederate cause in England is having its effect in France. Already the secession organs talk less about French intervention. The affair of Mexico creates for France a different interest in America from that of England; but the example of England in all that relates to America is none the less powerful in its influence on French policy. Then there is the old question of national jealousy, which makes each one fear at every step to provoke the hostility of the other. So that between these various causes you may consider that the question of intervention is not only dead as a possible policy of the Government, but dead even as a question of newspaper discussion.

Nevertheless, the French Government is urging the Grand Duke MAXIMILIAN to accept the throne of Mexico, exactly as if the American Union were broken up and powerless. This day the Mexican Committee arrive at the residence of the Grand Duke to offer him the throne, and the Grand Duke, as I have already said, will, in accordance with NAPOLEON'S instructions, accept, adding certain conditions which will give time for a further reconnoissance of the position. It is said, however, that the Grand Duke is disposed to trust a little to luck in this doubtful enterprise; and that he has great confidence in his own power of gaining the suffrages and the good-will of the Mexican people, and of the nations with whom, as a sovereign, he will be brought into communication. It is scarcely possible that the Grand Duke will go to Mexico under the flag of defiance; he will rather go, if he goes at all, under the flag of conciliation, hoping by his good qualities of head and heart, and amiable diplomacy, to control the diverse elements which compose his new Empire, and to disarm the hostility of the people of the United States. This is in fact the state of the case as we understand it here at this momeet, and we do not expect that any change will be made by the terms in which the Prince is going to reply to the Mexican Committee.

The Secessionists pretend to build high hopes on the one or more interviews Mr. SLIDELL has been enabled to obtain with the Emperor at Biarritz. But the reports of the late artillery practice at Charleston, and the descriptions of the new cuirassed frigates which the National Government is launching, it is said, have seriously marred the schemes which at first seemed to these two gentlemen so easy of realization. There is evidence that the Government people have awakened all at once to the fact that the Americans are leaving them far behind in the art of war, and that the greatest excitement prevails among military and naval men on the subject. While they are in this mood they will not dream of interfering in American affairs.

The expedition of Gen. BANKS to Texas provokes comments of various kinds. In general the writers in the Press affect to regard it with indifference, but they do not yet claim that the expedition is a violation of their rights.

The reported project of arming the slaves in the South has given rise to the rumor that as soon as the Confederate Government decides upon emancipating Slavery, Hayti will come forward to recognize the Confederacy! It is thus that the French, in their ignorance of the true sentiments of the Southern people on the subject of emancipation, pour coals of fire on the heads of their friends.

La France publishes a report that President JUAREZ is in Washington, but only publishes it in order to contradict the statement made by another paper, that he had been received by Mr. LINCOLN. The *France* declares that "Mr. LINCOLN would know better than to receive him!" In order that you may not be surprised at this singular piece of bluster, I ought to state that this is the paper which some time ago declared that it was the pride of France to have abolished the absurd doctrine of MONROE, and that if the Americans did not like French intervention in Mexico, all they had to do was to resent it and they would find their fleets blown out of the water in a week! The thing is quite in the style of the paper and therefore ceases to be offensive.

A Court of Bordeaux has decided that the Confederate steamer *Alabama* is a corsair, and one of the claimants against the *Florida*, says in a note in the journals, that he can prove every point taken in the decision in the Bordeaux Court against the *Florida*. He is, therefore, pushing his case against the latter vessel and hopes to see her also declared a pirate. It is not anticipated, however, that the Government will go back in its decision that she is a man-of-war, and, therefore, exempt from seizure.

The Ministerial papers deny the statement which comes from the United States to the effect that the Republics of America are forming a league against European aggression. We have been anxiously looking for *La France* to declare that they know better!

Nobody seems to know at this moment where the Polish question is. The best authorities, however, now assert that there is to be no reply to Russia's last note, but they do not tell us what they are going to do with the insult which thus far remains quietly in their pockets. They will probably settle down on Lord JOHN RUSSELL'S formula. Yes, Russia has been very saucy, and it is very wrong of her to talk as she does!

MALAKOFF.

LATER FROM NEW-ORLEANS.

Arrival of the Steamer Star of the South.

United States steamer *Star of the South*, WOODHULL, from New-Orleans, Oct. 4, 9 P. M., and Southwest Pass 5th, 8 A. M., arrived at this port to-day, with United States mails and $40,000 in specie. Passed in the Mississippi River bound-up steamers *Empire City* and *McClellan*. Oct. 8, 20 miles south from Jupiter Island Lighthouse, passed a propeller bound south; 10th inst., lat. 33° 46', lon. 75° 58', spoke bark *R. A. Allen*, ten days out from Fort Jefferson, (Tortugas,) bound to New-York. On the 6th instant, HENRY C. SMITH, of the One Hundred and Thirty-third New-York regiment, and a resident of New-York City, died of inflammation of the bowels, and was buried at sea. The *Star* experienced winds from the north to northeast since leaving Cape Florida, and strong north from Hatteras, with heavy N. E. swell.

Our files contain no news whatever.

Arrival of a Rebel Steamer at Halifax.

HALIFAX, Tuesday, Oct. 13.

The rebel steamer *R. E. Lee*, six days from Wilmington direct, arrived here this morning with about 30 passengers on board. She was chased by a Federal blockader, and has a shot hole in her.

The Court of Appeals.

ALBANY, Tuesday, Oct. 13.

In the Court of Appeals, Oct. 13, 1863, day calendar for Wednesday, Oct. 14—Nos. 187, 188, 189, 192, 193, 194, 195, 196, 198 and 198½.

A Card.

To the Editor of the New-York Tribune:

SIR: I learn, for the first time, from your journal of this morning that my name is used by some of my friends as a candidate for the State Legislature. Will you permit me to state that, while I appreciate very highly this mark of their confidence, I could not accept such a nomination if it should be tendered to me. I trust it is unnecessary for me to add that I shall very cordially support any candidate whom the Union men of the district may select, without regard to divisions which over-zealous or mischievous partisans may seek to create.

Your obedient servant,

HENRY J. RAYMOND.

NEW-YORK, Oct. 12, 1863.

LAUNCH OF THE MANHATTAN.—The Ericsson battery *Manhattan* will be launched from SECOR'S yard, in Jersey City, this (Wednesday) morning at 6½ o'clock. The yard will be open to the public.

LOCAL POLITICS.

Slaughter of the Democratic Innocents.

The sacrifice of Judges HILTON and BOSWORTH is complete, so far as Tammany can make it. The Judgeship of the Common Pleas has been handed over to the Mozart faction, in which, amongst the leaders, Judge HILTON has no friends. Judge BOSWORTH's place on the bench is now in debate between City Judge McCUNN and a Mr. CARDOZA, who is pressed by one section of the Mozart leaders, aided and abetted by Mr. Alderman FARLEY, of the Tammany wing. Surrogate TUCKER is in more danger than his friends seem aware of. By uniting with Brother BEN WOOD against FERNANDO, on the nomination of JOHN McCOOL for Register, he has incurred the enmity of Sheriff LYNCH, Mr. MAT. GOODERSON, Mr. BEN. RAY and others of that ilk, who were in favor of Mr. TOM. HEN. FERRIS for the office. Mr. JOHN DECKER, Chief Engineer of the Fire Department, is thus thrown out of the two regularly accredited organizations; and must run for Register as the candidate of the "New-York," "Jeffersonian," and all the allied sore-heads of the Democratic party. He is a strong man; and with ten thousand firemen and exempts behind him, or Mr. JOHN S. GILES, (also a possible sore-head candidate for this office,) his competition may become formidable, and will certainly give strength to whatever ticket he may run upon. The revolt of Sheriff LYNCH and Mr. MAT. GOODERSON is believed to indicate the hostility of Judge BARNARD and Comptroller BRENNAN to Mr. TUCKER's reëlection as Surrogate—Sheriff LYNCH and GOODERSON both being in favor of Mr. SAM. JONES, Judge BARNARD's brother-in-law, for the office. Under the coalition as made, City Inspector BOOLE has a clear track for Mayor, so far as the united action of Mozart and Tammany can secure it. This is the chief point in which the City Railroad men of Tammany have been heavily defeated—the non-success of Mr. S. B. GARVIN for Judge WHITE's place being another sore discouragement. There may yet be some slip between BOOLE's cup and his lip. His enemies are active, and his agency in securing a yearly revenue of $300,000 to the City in the Harlem-Broadway Railroad will not lightly be forgiven, and can never be forgotten. The Tammany self-elect had everything "arranged" at Albany to secure this grant to themselves, without one cent of compensation to the City for the injury to be thus inflicted upon our most beautiful thoroughfare. Mr. BOOLE suddenly put in his oar and settled, that, if any rail-track was to be laid in Broadway, the City should receive a yearly revenue equal to many millions bonus, for the privilege,—the probabilities being that the rival claims thus created will keep Broadway out of the clutches of any City railroad managers, either "Harlem" or "Peter Guese," for many long years to come.

Mozart General Committee.

A special meeting of the above Committee was held last evening at its headquarters, Mozart Hall. After roll-call the call for the meeting was read by the Secretary. Mr. P. KERRIN, one of the signers of the call, then explained the object of the meeting. He said that as the Conference Committee had so far fulfilled its duties to the satisfaction of the Democratic party, he moved that the Committee adjourn. Which motion was lost. Hon. FERNANDO WOOD denounced the tone of the call for the meeting, and offered the following resolution:

Resolved, That having full confidence in the Conference Committee heretofore appointed by the General Committee, we are willing to intrust it with all the powers delegated to it, and shall affirm its actions and the nominations it may make.

Upon the ayes and noes being called, there were found to be 165 ayes and 3 noes. The Committee then adjourned.

The McKeon Democracy.

COUNTY NOMINATIONS.

The County Convention of the McKeon Democracy met last evening at their rooms in the St. Clair Hotel, corner Broadway and Eighth-street, for the purpose of making County nominations. Dr. WILLIAM MURPHY, of the Seventeenth Ward, was called to the Chair and made permanent Chairman of the organization. GEORGE WHITE, of the Ninth Ward, and HENRY ROOME, of the Twelfth Ward, were elected permanent Secretaries.

After each person not a delegate to the Convention had been excluded from the room, the Convention proceeded at once to the nominations for Register and Supervisor.

PHILIP W. ENGS, JOHN McCOOL, THOMAS H. FERRIS, JOHN S. GILES, ROBERT BARCLAY and ALBERT H. LOCKWOOD were nominated for Register. After the third ballot, PHILIP W. ENGS, having received two-thirds the votes of the members present, was declared unanimously the choice of the Convention.

The Convention then went into nomination for Supervisor. The prominent candidates were FREDERICK E. REPPER, PATRICK DAVIS, DAVID SMITH and WM. F. BIRDSAL. Upon the second ballot, FREDERICK E. REPPER was declared unanimously nominated; and the Chair having, upon motion, appointed five persons to confer with the candidates, adjourned.

Brooklyn.

BROOKLYN DEMOCRATIC CITY CONVENTION—NOMINATIONS OF MAYOR AND STREET COMMISSIONER.—The Brooklyn Democratic City Convention met at the "Senate," in Fulton-street, yesterday afternoon at 3 o'clock, and effected a temporary organization by selecting Mr. WM. B. PARKS as Chairman. The list of delegates was then called, and it was found that 14 out of the 20 Wards were contested. The entire time until 8 o'clock P. M. was occupied in deciding between the contestants. At length, all those entitled being admitted, Mr. WM. S. LEECH was elected permanent Chairman. An informal ballot was taken for Mayor with the following result:

Benjamin Prince	40
Martin Kalpfleisch	8
David M. Talmage	9

A question having been raised on a report that Mr. KALBFLEISCH did not intend to abide by the decision of the Convention, a Committee of Five were appointed to wait upon him, and also upon Mr. PRINCE. After an absence of half an hour, the Committee returned and reported that Mr. PRINCE had expressed his determination to abide by the decision of the Convention under any circumstances. The Committee were unable to find Mr. KALLFLEISCH. The report was accepted, and on motion, Mr. BENJAMIN PRINCE was nominated as the Democratic candidate for Mayor, by acclamation. There was not a dissenting voice.

An informal ballot was then taken for a candidate for Street Commissioner, resulting as follows:

Thomas H. Murphy	31
Farrell Ward	14
Jarvis Whitman	14

A formal ballot was dispensed with, and Mr. MURPHY was declared the unanimous nominee of the Convention, by acclamation.

DEMOCRATIC JUDICIAL CONVENTION.

The Brooklyn Democratic Judicial Convention for the nomination of Justices of the Peace, was held at the "Capitol" in Jerolemon street, yesterday afternoon. Mr. THOMAS H. FARON presided. After calling the Delegates, a ballot was taken for Justice of the Third District, which resulted in the nomination of Mr. MICHAEL WALSH by the following vote:

Michael Walsh	41
John R. Wilds	13
Chas. B. Willey	7

Mr. JOHN H. COLOHAN was then nominated for Justice of the Fourth District. He was chosen by acclamation and the Convention adjourned.

Movements of Troops.

ALBANY, Tuesday, Oct. 13.

Orders have been received to forward to New-York all the volunteer troops in the State.

The McClellan cavalry, 1,200 strong, left here yesterday afternoon.

Billiards.

Is PHELAN yet able to vanquish SEEREITER, is a mooted question, which can be answered by the result of the contest between them, at the Tivag testimonial, at Irving Hall, this afternoon. Of course, SEEREITER is in his best play, as he has been weeks training for his trial with KAVANAGH for the championship, while PHELAN has only played an occasional game; yet good judges are of the opinion that the Father of Billiards will come out first best. Several other first-class players are in the programme for the afternoon, when it is expected the ladies will be present in force. In the evening the champion, KAVANAGH, contends with TIEMAN, and among the other novelties is a trial at the French game by Mons. ISIDORE and ESTEPHE. Nearly all the players were in town last evening, and from appearances the testimonial will be a great success.

"IRON CLADS!"
ANOTHER FIRE AT BUFFALO.
BUFFALO, N. Y., Oct. 6, 1863.

Messrs. Herring & Co.:

GENTS: On the 19th of September, 1862, my Grain Elevator and Office were destroyed by fire. I had in my office one of your Patent Champion Safes, which contained my books, papers and money. The safe was subjected to a most severe heat for about thirty hours. After removing it from the ruins and opening it, I found the contents uninjured, everything being as legible and as useful for reference as any of my old books, the only injury being to the covers of the books, which came off, probably from the action of the steam. I would recommend to those wishing a genuine Fire-Proof Safe to purchase one of your "Iron Clads."

Yours, Respectfully,
CHARLES W. EVANS.

AGAIN NEW TESTIMONY.

READ.

HARLEM, July 30, 1863.

I have been deaf for over TWENTY-FIVE YEARS, and Dr. VON EISENBERG operated on both of my ears without the slightest pain—a thing that I could not believe could be done. I now *hear* well, and feel as I never felt for the last twenty years. The dexterity and skill with which the operation was performed evince the highest practical ability. I *hear perfectly*. It is now over a month since the operation, and I continue to feel as well as ever.

CATARRH CURED.

NEW-YORK, Aug. 23, 1863.

I have been suffering for the last three years from a severe Catarrh, with a continual dullness in my head, a tightness across my chest, a weight over my eyes, which were weak, watery and very painful. My nostrils were continually obstructed with a pouring of fluid. I have had frequent sneezing, hoarseness of my voice, generally attended with spitting, often with a fullness of my throat, together with a soreness and a dropping. Dr. VON EISENBERG has cured me of all these disagreeable sufferings. I now feel a new life. The treatment of Dr. VON EISENBERG is as skillful as it is successful; it is impossible to overrate the benefit I have received at his hands. I heartily recommend any one suffering like myself to place themselves under Dr. VON EISENBERG's care, with a certainty of being *speedily* cured. I give this with gratitude and pleasure. I cannot forbear again saying that my voice, which was hoarse and thick when I applied to Dr. VON EISENBERG, is now clear and good; indeed, I feel abundantly satisfied.

JAMES LITTLE,
No. 245 7th-st., New-York.

NEW-YORK, Sept. 8.

I have been suffering for years past from a severe Catarrh, with a great heaviness over my eyes, with a severe depression, great uneasiness, and pain in my head, great difficulty in breathing, and a continual accumulation in my nostrils, which gave me restless nights for several years. I have consulted several physicians, who pronounced me to be consumptive. What I suffered for so long a time is indescribable. My system was entirely disarranged and greatly debilitated. I not only felt weak, but I had a cloud continually before my eyes, and my ears were so affected that I was threatened with a total loss of hearing. I must say, I think, I was guided by Providence to come to Dr Von Eisenberg, who not only cured me of my Catarrh by removing an astonishing quantity of disagreeable matter from my head, but he restored me to perfect health, a blessing I have not enjoyed for many years. Now I enjoy a good night's rest, and pursue my business with comfort. I must acknowledge that Dr. Von Eisenberg's mild and scientific treatment for Catarrh deserves the highest commendation, as the principle which directs his system of curing Catarrh is such as to render success certain.

JAMES FURLONG, No. 556 2d-av.

No. 134 ALLEN-ST., NEW-YORK, Feb. 9, 1863.

I have been completely deaf in one ear, and partially so in the other, for above seventeen years, with a disagreeable discharge from both ears, combined with continual rumbling noise in the head, for which I have been treated by a most eminent practitioner in the City without the slightest relief.

I consulted Dr. Von Eisenberg, but I must candidly say that I had no faith in his success when I did so. It is, therefore, due to Dr. Von Eisenberg to acknowledge that I am entirely cured; also, that he displayed that skill and knowledge which have procured for him such an unrivaled reputation. As I have had an opportunity of comparing his mode of treatment with that of others, I can truly state that it is not only superior, but the principles which direct his mode of restoring the hearing are, in my opinion, certain.

JOHN TAYLOR.

NEW-YORK, July 19, 1862.

This certifies that my mother has been for some time afflicted with partial deafness, suffering from pain, and rumbling noises in the head, together with other indications of a *total loss of hearing*. Dr. Von Eisenberg removed from her ears a great quantity of matter, together with coagulated blood, relieving her instantaneously, and all without pain. It is with grateful thanks that I give this testimony to his skill.

CARROLL J. POST, No. 28 South-st.

SIGHT RESTORED.

JUNE 25, 1863.

My daughter brought me to Dr. VON EISENBERG almost completely blind in both eyes. I could not bear the pain nor the light. I am completely cured by Dr. VON EISENBERG, and called now to express my gratitude to the Doctor for his skill and unremitting attention, by which I recovered one of the most precious senses to me after being deprived of it for four years. It is only due to Dr. VON EISENBERG to state that I have tried several physicians in vain. I shall be happy to bear personal testimony to Dr. VON EISENBERG's unrivaled success to any lady or gentleman who will call on me.

CHRONIC CATARRH CURED.
READ.

NEW-YORK, March 20, 1863.

"This is to certify, that I have suffered from very severe CHRONIC CATARRH, with a dull heaviness in the head. I felt my nose completely stopped up accompanied by continual soreness of the throat, the chills stealing over me with occasional hot flushes, a great tightness of the chest and pain, so much so, that every one thought it was consumption. Having heard of the great cures performed by Dr. Von Eisenberg, I consulted him with but little hope of a cure. I am now happy to be enabled to add my testimonial to the great number already in the Doctor's possession, as to his scientific and successful mode of treatment, as he has shown in my case that skill and knowledge which have procured for him so great a reputation. I am so entirely restored to perfect health that I do most sincerely recommend all sufferers from CHRONIC CATARRH and SORE THROAT to apply at once to Dr. Von Eisenberg with a certainty of being cured."

DR. VON EISENBERG'S OFFICE
NO. 816 BROADWAY, NEW-YORK.

From the army hospital—the bloody battle field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain top, distant valleys and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astonishing effects of DRAKE'S PLANTATION BITTERS. Thousands upon thousands of letters like the following may be seen at our office.

REEDSBURY, Wis., Sept. 16, 1863.

* * * * I have been in the army hospitals fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me. * * * *

C. H. FLAUTE.

SOUTH WARSAW, Ohio, July 28, 1863.

* * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by ten bottles of your Bitters. * * *

EDWARD WOUNALL.

The following is from the Manager of the Union Home School for the Children of Volunteers:

HAVEMEYER MANSION, 57TH-ST.,
NEW-YORK, Aug. 2, 1863.

DR. DRAKE: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness and weak lungs with most happy effect. One little girl, in particular, with pains in the head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite increased; strength and health followed. * * *

Respectfully, MRS. O. M. DEVOE.

* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

Rev. W. H. WAGGONER, Madrid, N. Y.

* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend,

ASA CURRIN, Philadelphia, Penn.

* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

Rev. J. S. CATHORN, Rochester, N. Y.

* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.

SYKES, CHADWICK & CO.,
Proprietors of Willard's Hotel, Washington, D. C.

* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, Ohio.

* * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY, Cleveland, Ohio.

* * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE,
Agent for Colgate & Co., No. 264 Broadway.

&c., &c., &c., &c., &c. &c.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c., all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and imposter. We only put it up in our log-cabin bottles. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States Stamp over the cork, and signature on steel plate side labels.

Sold by respectable dealers throughout the habitable globe.

THE MANAGERS OF THE COLORED ORPHAN ASYLUM, having taken the house formerly occupied by H. W. Field, Carmansville, expect to remove the children in the course of the present week.

They need hardly revert to the destruction of their valuable and commodious buildings, well stored with furniture, bedding, clothing, &c., all of which were wholly consumed, or distributed among the mob.

They rejoice to inform the public that not one of the children were lost or injured, but were safely conducted by faithful officers of the Institution to the 35th-st. Station-house, who remained with them three days and three nights in that densely crowded place.

When removed to Blackwell's Island, which was thronged with colored refugees from the City, they were kindly received, and have been cared for and protected to the present time, for which the Managers would gratefully acknowledge their obligations both to the Commissioners of Charity and Alms, and their Warden, N. P. Anderson.

They would also express their heartfelt thanks to John Decker, Chief of the Fire Department, who several times, at the risk of his life, extinguished the flames in different parts of the building after they were kindled.

Thanks are also due to Capt. Walling and his company, of the 35th-st. Station-house, for kind protection afforded at the time of the mob, and to many others not named.

Donations in money, bedding or clothing, furniture, dry goods, groceries, &c., &c., will be most gratefully received at the present time.

The Superintendent, William E. Davis, Carmansville, will be down with a wagon daily during the ensuing week, and will call on such persons as are disposed to respond to this appeal, and will address him on the subject. Or packages may be sent to J. D. Smith, 374 4th-av.

GRAND AUCTION SALE
OF HORSES, CARRIAGES, HARNESS, &c.,
On THURSDAY, Oct. 15, 1863,
Commencing at 1 o'clock P. M., at
MESSRS. ALLERTON'S DROVE-YARD,
5th-av. and 45th-st., New-York.

In conformity with the request of many patrons, the subscriber will offer for sale, by auction, at the above grounds, an extensive variety of HORSES, CARRIAGES, &c., the property of many private gentlemen wishing to dispose of their establishments without inconvenience or delay.

Mr. D. flatters himself that the above sale will be productive of great benefit to the public by bringing together a large concourse of sellers and purchasers.

The want of an appropriate place of easy access for City and country patrons by the City cars and omnibuses, is happily combined, it being on the main avenue and in the most fashionable part of the City, and having a beautiful unpaved driving and riding course one-quarter of a mile long.

Gentlemen wishing to enter their horses, &c., for the above sale, can do so at my office, 5th-av., corner of 40th-st., at any time previous to the 14th inst., on which day catalogues will be ready for distribution.

N. B.—Should the weather prove unfavorable, the sale will be postponed to Saturday, 17th inst.

GREAT SALE OF 107,000 ACRES OF RAILROAD LANDS AT AUCTION.—The Dubuque and Sioux City Railroad Company will sell at auction, at their office in Dubuque, Iowa, on THURSDAY, the 12th day of November next, one hundred and seven thousand acres of land, consisting mostly of Des Moines River Lands. Sale to be continued from day to day until all are sold.

These lands are the best in the State and possess the following qualities and recommendations:

COAL.—They contain inexhaustible mines of bituminous coal, convenient to the line of said railroad.

GYPSUM.—The only gypsum, or plaster of Paris bed in the Mississippi Valley is immediately among these lands. It is of superior quality, and is found in inexhaustible quantities. Specimens of coal and gypsum can be seen at the office of the Company.

OTHER MINERALS.—Hydraulic cement, fire-clay and iron ore are also abundant. Stone for building purposes is plenty. There is also a grind-stone quarry.

TIMBER AND WOOD will be sold in sufficient quantity to supply the prairie lands. The timber consists of black and white walnut, oak, sugar-maple, bass-wood, elm, etc.

WATER AND SPRINGS.—These lands are well watered. Large and excellent springs are very numerous, so much so as to make it one of the characteristic features of the vicinity of Fort Dodge, where these lands are situate.

GRASS, STOCK-RAISING.—These lands offer especial attractions to those about to embark in stock-raising. The native grasses of that region yield nearly three times as much per acre as in the vicinity of the Mississippi River. Two varieties of native red-top grow very luxuriantly in that region. Very large herds of cattle and sheep have already been attracted thither.

CORN AND WHEAT grow much more luxuriantly in that vicinity than in the easterly part of Iowa. The soil is exceedingly rich and deep. The neighborhood abounds in limestone, which is a sufficient guaranty for regular and abundant wheat crops.

HEALTH AND CLIMATE.—The country is very healthy; and is entirely free from those diseases which prove so great a drawback in the more southerly portions of this and neighboring States.

SETTLEMENT AND SCHOOLS.—The lands are situate in the immediate vicinity of Fort Dodge, Webster County, Iowa. Fort Dodge already contains a population of 1,000 inhabitants, a fine court-house, several churches, schools, stores, &c. It is destined to soon become the largest town on the line of the Dubuque and Sioux City Railroad, between Dubuque and the Missouri River. A large portion of the lands offered for sale are situated among improved farms, where the settler will enjoy all the advantages of a partially improved country. The people of that vicinity are generally from the Eastern and Northern States.

RAILROADS.—The Dubuque and Sioux City Railroad is now completed and in operation to Cedar Falls, one hundred miles from Dubuque. Forty-four miles, from Cedar Falls to Iowa Falls, are now under contract, and being rapidly pushed forward. It is expected that the road will be completed to Iowa Falls early in the Spring, and to Fort Dodge as fast as possible. The Keokuk, Fort Des Moines and Minnesota Railroad will probably reach Fort Dodge from Keokuk nearly as soon as the Dubuque and Sioux City.

Further information can be obtained at the office of the company, where maps and a detailed description of the lands can be seen. Persons or colonies wishing to purchase are especially invited to go out and make personal examination, and satisfy themselves with regard to the above representations.

The company obtained the title to the lands by direct grant from Congress, and will make warranty deeds to purchasers.

Terms of sale—Cash.

MEDICAL.

PRIVATE DISEASES CURED IN THE shortest possible time, by Dr. WARD & CO., No. 50 Lispenard-st., near Broadway, without the use of Mercury, loss of time or change of diet. Dr. WARD, from the hospitals of London, Paris and Edinburgh, is the discoverer of the only certain and reliable remedies for diseases of a private character. In 28 years' practice he has cured more cases of Secret Diseases and Wrong Treatment than all others combined. I can and will cure you in less time and expense than any one can or will, and those who have been robbed of their money and health, call; it will take but little money and time to restore you. If you have been unfortunate, call at once. By his special experience in this much neglected branch of medical science, he is enabled to guarantee a cure in the most complicated cases. Recent cases of Gonorrhœa or Syphilis cured in a few days, without change of diet or hindrance from business. Secondary Syphilis—the last vestige eradicated without the use of Mercury. Involuntary emissions stopped in a short time. Sufferers from Impotency, or loss of sexual power, restored to full vigor in a few weeks. Permanently and speedily cured by a new treatment. Persons at a distance failing to receive prompt treatment elsewhere, may get a permanent cure effected by writing a full diagnosis of their case, addressed to Dr. WARD, No 50 Lispenard-st., the only place. Call, send for a circular, or write.

SURE CURE—BY DR. POWERS, SUCCESSfully consulted with Dr. WARD, No. 50 Lispenard-st. Conducted on the plan of the Hospital des Veneriens, Paris, where those afflicted with any form of private disease can receive prompt treatment, without risk or exposure, viz.: Syphilis, gonorrhœa gleet, strictures, ulcers, tumors, cancers, secondary and constitutional syphilis, diseases of the kidneys, &c., &c. Thirty years of extensive practice, exclusively devoted to the treatment of those complaints enable us to effect cures in cases where others of less experience have failed. Dr. Powers' Essence of Life restores the vigor of youth in four weeks. This marvelous agent restores manhood to the most shattered constitution—physical disqualifications, impediments to marriage, thereby speedily cured. The men to consult, Drs. Ward and Powers, the champions and kings of venereal diseases, possessing the most certain, speedy and only effectual remedies in the world, guarantee a perfect cure, or no charge, in from one to three days. Established in 1830. Those who have used their preventives are never without. Send for a circular. To Ladies.—Dr. Powers' Periodical Drops are a safe and certain remedy for monthly irregularities. The above remedies sent by mail. The afflicted should read their circular. Postage free, on receipt of a stamp. Cures warranted.

W. M. STEDMAN,
Camden, N. J.

PRIVATE CONSULTATION.—DR. HUNTER has for thirty years confined his attention to diseases of a certain class, in which he has treated no less than fifty thousand cases without an instance of failure. His great remedy, HUNTER'S RED DROP, cures certain diseases when regular treatment and all other remedies fail; cures without dieting or restriction in the habits of the patient; cures without the disgusting and sickening effects of all other remedies; cures in new cases in less than six hours; cures without the dreadful consequent effects of mercury, but possesses the peculiarly valuable property of annihilating the rank and poisonous taint that the blood is sure to absorb unless his remedy is used. That is what he claims for it, and what no other will accomplish. Its value in this respect has become so well known, that scientific men in every department of medical knowledge begin to appreciate it, for hardly a week passes that he is not consulted by druggists, chemists and physicians in regard to some pitiful patient who has exhausted the whole field of the faculty, and still the disease will appear. Its popularity is so great that there is not a quack doctor in the City that has not attacked it, and when they find their lies are not so easily swallowed, they then pretend that they can make it. It is $1 a vial, and cannot be obtained genuine anywhere but at the old office, No. 3 Division-st. Book for 15 three-cent stamps, 300 pages, 100 colored illustrations. The best work out.

HOMEOPATHIC MEDICINES.

THE VISIT TO THE INSTITUTIONS.

A Large Number of Foreign Guests.

The visit to the Institutions, by invitation of the Commissioners of Public Charities and Corrections, came off yesterday, and was enjoyed by a large number of guests. The parties for whom it was specially intended were the officers of the different foreign war-vessels in the harbor, the foreign Ministers, Consuls and other dignitaries in the City. Portions of the company, about 10 o'clock A. M., left Pier No. 1, East River, in the steamer *John Romer*, and another portion joined them at Bellevue. Among those who availed themselves of the invitation were the British Admiral MILNE, the French Admiral REYNAUD, and the officers of their fleets; Count DE SANDOVAC, Commander of Moro Castle, Cuba; Count DE GEORGI NUSBEFAN, Minister, and Vice-Consul H. KOHEN; Capt. DEL SANTO, Royal Italian Navy; M. DE COURCOIS, Deputy French Consul at Boston; Chevalier BERTHALLI, Haytien Minister, and a number of other foreigners. Admiral FARRAGUT was present, as were a host of other prominent citizens.

The Russian Admiral did not join the party, nor did any of his officers. There were different reasons assigned for their absence, though it was generally understood that prior engagements were the cause.

The company reached Randall's Island about 11 o'clock, and were received by the juvenile brigade. A welcoming speech from its orator, WM. THOMPSON, was made, and its drill witnessed. The buildings were handsomely decorated with the English, French and Russian flags. The French flag was presented to the boys by Prince NAPOLEON, on his visit to this country. A tour was taken through the various buildings, and then a visit to and thorough inspection of the House of Refuge. These visits were made with great interest.

The party then repaired to Blackwell's Island, and inspected the various institutions. Commissioner DRAPER led the party, in company with Admirals MILNE and REYNAUD, explaining to them the objects and workings of the institutions, and finally, conducted them to the house of Mr. JOSEPH KEEN, the Warden, in the spacious dining hall of which was a well spread collation.

The Admiral said that he deeply felt the compliment paid to himself and his friend Admiral REYNAUD, who desired him to respond in his behalf; he expressed the pleasure they had experienced in what they had seen, and at the courtesy they had received from Mr. DRAPER and the gentlemen present, and regretted that a previous engagement for that evening would compel them to leave so early; he had hoped to be able to put off this preëngagement with his Consul and other friends, but, as the fleet would have to leave New-York on Wednesday morning, he had left Washington at 6 o'clock on Monday evening, in order that he should have the pleasure of passing a few pleasant hours that morning with his friend Mr. DRAPER and the other gentlemen Commissioners. His warmest thanks were due for the kindness and courtesy they had met with on this pleasant trip. The most warm and hearty applause followed this brief and really eloquent little speech, and Mr. DRAPER attended the Admiral to a steamer, and shortly returned, when toasts and speeches prevailed for some time.

Capt. HANCOCK, of the British ship *Immortalite*, being toasted, thanked the Chairman for the compliment. My Commander-in-Chief has said already all that could be said in appreciation of the kind hospitality, but I cannot resist the opportunity of again conveying the thanks of myself and fellow officers of the British navy for the warm expressions of friendship and the hospitality we have received, both here and elsewhere, since we have arrived in New-York. I take pleasure in saying that I have met Americans in all parts of the world, both of my sister service and in mercantile life, and have always met them and been received by them in that kindly spirit which ought to exist between the mother and her sons. Again, gentlemen, allow me to thank you for the kind feeling you have shown to me and my brother officers—a feeling which I hope no circumstance will ever occur to give us cause for regret.

The party soon after paid a short visit to Bellevue Hospital. After which, they returned to the City.

A Deserter Shot Dead while Attempting to Escape.

CORONER'S INQUEST—THE PERPETRATOR ACQUITTED.

Considerable excitement was created yesterday morning about 6 o'clock in the neighborhood of West and Albany streets, by the fact that a soldier was shot dead while attempting to run away from the officers having him in charge. At the time of the occurrence the streets were filled with people, but no one else was injured. The soldier was shot through the heart, and died instantly.

The facts developed on inquest held by Coroner COLLIN yesterday afternoon, are substantially as follows:

On Monday night twenty-four deserters from Fort Trumbull, Conn., were put on board of a New-London boat to be sent to Governor's Island. They were placed in charge of Sergt. WHARBURTON, of the Fifth Connecticut Volunteers, who, with three men under his command, was required safely to deliver them to the Commandant on Governor's Island. The fact that these deserters were desperate men appeared in the testimony. Before leaving Fort Trumbull, the Sergeant received express instructions to guard them well, and shoot down the first man who attempted to escape. While on the boat, on the way here, some of the soldiers caused much trouble to the men having them in charge. They landed at Pier No. 39 North River, and marched down West-street, toward their destination. When they arrived at Albany-street, LAWRENCE KILLOUGH, one of the most desperate of the deserters, broke from the ranks, and started on the run up Albany-street. The Sergeant in command three times called to him to halt. KILLOUGH paid no attention, but kept on running. The Sergeant then ordered GEO. W. BUTLER, who acted as rear guard, to fire. He leveled his musket, and at a distance of ten or twelve yards, shot KILLOUGH. The ball entered his body below the left shoulder-blade, passed entirely through the body, piercing the heart in its passage, and struck several yards beyond. BUTLER was immediately arrested and taken to the Twenty-seventh Precinct Station-house. After a thorough examination of the case by Coroner COLLIN, the jury rendered the following verdict:

"That the deceased, LAWRENCE KILLOUGH, came to his death by a gunshot wound at the hands of GEORGE W. BUTLER, of the Nineteenth Connecticut Volunteers, and as the prisoner acted under positive military orders, we think he was fully justified in committing the act." BUTLER was thereupon discharged from custody. The deceased was a native of Ireland, aged about 29 years. He is said to have deserted several times before.

Trial of Galvin Concluded—Verdict, Guilty.

COURT OF OYER AND TERMINER.

Before Justice Barnard.

At the opening of the Court, District-Attorney HALL moved the Court that the indictments found by the Grand Jury on Monday last be transferred to the Court of Sessions, and that the prisoners be removed to that Court for arraignment. The Court granted the motion.

The trial of JAMES GALVIN, indicted for arson, was then resumed. Mr. EDMUND BLANKMAN, who appeared for the defence, stated that he would dispense with a formal opening of the case to the jury, but would proceed at once to call his witnesses for the defence. The first witness called was

William Galvin, who testified that he was an uncle of the prisoner, that he lived on Ninety-fourth st.

Counsel for defence offered in evidence a Farmer's Almanac, (the almanac being the property of the witness), for the purpose of proving that there was no moon shining on the night of the alleged offence, in order to contradict the statement of Mrs. Wilkinson, that she identified the prisoner at a distance of two hundred feet by his clothes and his face. The Court excluded the evidence, except for the purpose of fixing the date.

The witness then went on to testify that he had known prisoner from his infancy; that prisoner was now twenty years old, and that his character for integrity was most excellent; that he was sober and steady in his habits and quiet and peaceable in his disposition. The only quarrel that prisoner ever had was one with a Central Park policeman.

Mary Sanders, sworn—Lives in Ninety-third-street; never knew defendant until the night of the alleged offence; Kelly Saulsman and defendant were at my house that night; they were drinking there; they were there for an hour or more; they had had a drink all round, when Saulsman proposed to go home; Galvin proposed another drink, when we heard the cry of fire; the cry came from Mrs. Wilkinson's, at the Eagle Hotel, opposite; they all left the place and went toward the fire.

Cross-Examined by District Attorney.—I keep a public house; I don't call it a hotel. My husband is a soldier in the army, and is now on Staten Island. I dont know Mrs. Murphy, but made her acquaintance at the Court-house, before Justice DODGE. I went there that morning to make a complaint against Mr. Sanders, for some of his short-comings, and not to testify for or against the prisoner.

John McQuade, Robert Thompson, Michael Sheridan, Rosanna Hancock, and James Crowley were sworn as witnesses to the prisoner's good character. All knew him to be a good, quiet, orderly and peaceable man. His mother was also sworn to show the same state of facts, and that he was a dutiful son and affectionate in his disposition. The case having been summed up by counsel for the prisoner, and by District Attorney Hall for the people, the jury retired.

While the jury in Galvin's case were out, Thomas McCousky, having plead guilty to riot, was brought up for sentence. The prisoner having been confined in jail ever since the riots, and having shown a previous good character, was sentenced to two months in the Penitentiary.

The jury in Galvin's case now returned, and stated that they found the prisoner guilty of arson in the third degree, and asked the Court that the lightest possible punishment should be imposed upon him.

The prisoner, on being brought up for sentence, declared that he was not guilty of the charges. The Court said that he had been convicted on a state of facts which would warrant the conviction, and sentenced him to four years hard labor in the State Prison.

Naval Movements.

THE LIGHT DRAFT IRON CLAD GUNBOAT "COROES."

This vessel, which was commenced some weeks ago at Mr. ROWLAND'S yard at Greenpoint, is progressing rapidly. She was designed by Chief Engineer STIMERS, U. S. N., and is intended for river and harbor navigation. She is 225 feet long, 45 feet wide, and 9 feet depth of hold. The *Cohoes* is of peculiar construction. There is an immense hull, outside of which there is another hull, the space between them forming water-tight compartments; outside of the outer hull is the wooden bulwarks and iron armor. The compartments are capable of being flooded and pumped out if necessary, so as to lighten her. The inner vessel is able to float without the aid of the outer hull, if it should be damaged by a ram or projectile. The internal sides are square with the bottom, which is perfectly flat the whole length and width of the vessel. The sides will be 6½ feet thick, including the compartments, timber and 3 inches of iron plating. The frame and inner hull are already completed. The revolving turret will be 20 feet in diameter and 8 inches thick of solid iron. The accommodations for the officers are forward, and those for the sailors are placed in juxtaposition. She will be driven by two propellers. Her armament will consist of two 150-pounders. Her speed is expected to be 6 knots; it is probable that she may make 8 knots, which is very good speed for this class of vessels. The decks will be bomb proof—15 inches of solid timber with a coating of iron one inch in thickness.

THE STEAM FRIGATE NIAGARA.

This 40-gun steam frigate was put in commission yesterday, at 4 o'clock in the afternoon, at the Navy-yard in Boston, as we learned by a telegraphic dispatch. She is under orders to proceed at once to Gloucester, Mass., for the purpose of endeavoring to get some seamen to enlist for the navy. Her destination, after she has rendered some service there, is unknown. The following officers reported on deck when the flag was hoisted: Commodore, THOMAS J. CRAVEN; Lieutenant-Commander, J. S. Barnes; Surgeon, J. L. Fox; Paymaster, J. H. Watmough; Chief Engineer, Wm. Roberts; Chaplain, Wm. A. Hitchcock. Marine Officers: First Lieutenant, J. F. Baker; Second Lieutenant, L. P. French; Master, Wm. Watson; Acting Ensign, J. A. Slamm; Ensigns, R. S. Chew, W. R. Bridgman, A. S. Barker; Assistant Surgeon, C. J. T. Wells; First Assistant Engineer, O. H. Lachey; Second Assistants, F. E. Brown, J. Butterworth, W. H. Harris; Third Assistants, F. Schober, J. H. Diamond, G. McAllister, R. F. Edwards, E. F. McElwell; Commodore's Clerk, S. B. Clark; Paymaster's Clerks, S. M. Coleman, F. H. Jarvier; Master's Mates, H. C. Leslie, E. N. K. Place, F. B. Atkinson, S. S. Jessurum; Boatswain, George Smith; Gunner, Eugene Mack; Carpenter, Nicholas Mayer; Sailmaker, A. W. Cassell.

THE LAUNCH THIS MORNING.

The iron-clad *Manhattan* will be launched at 9½ o'clock this morning at the yard of the Messrs. SECOR, in Jersey City. Tickets for the launch can be obtained of Mr. BIRKBECK, the Superintendent.

A New Enrollment Ordered.

THE SECOND, THIRD, FOURTH, FIFTH AND SIXTH DISTRICTS.

A short time since it was stated in the TIMES that a reënrollment in those districts where only half the claimed quotas was drawn, would soon be ordered, and that the preliminary steps had been taken at Washington. This was denied in some of the papers, and in one on the authority of Col. NUGENT. Yesterday, this gentleman issued orders, in pursuance of instructions from Washington, to the Boards of Enrollment of the Second, Third, Fourth, Fifth and Sixth Districts to prepare forthwith to proceed with a reënrollment of those Districts. These are the ones to the enrollment and quotas of which Gov. SEYMOUR made objections. On such objection the President assented to a reënrollment and directed only fifty per cent. of the quotas claimed to be drawn. The President also gave to Gov. SEYMOUR the permission to select some one to see that the reënrollment was fairly and correctly made.

The Municipal Banquet.

Next Monday evening the Grand Municipal Banquet is given at the Astor House. The Admirals and officers of the Russian, English, and French fleets—if there be men-of-war of other nationalities in the harbor at the time, their officers also—the foreign ministers and consuls, the President of the United States, the members of the Cabinet, in short all the foreign and native notabilities who can be reached, it is proposed to invite. Some eight hundred guests will probably participate in the municipal cheer, and the occasion will be one for a grand gathering of those of the North and the East, the South and the West, and for a general mixing up of notabilities and hospitality.

The Banquet will be provided on a scale of liberality exceeding all previous efforts in such direction, earth, sea and air being ransacked for the bill of fare.

GENERAL CITY NEWS.

CHESS MATTERS.—The chess-playing season opens this month, and, from present appearances, there is going to be lively times in chess circles in this City this Winter. On Wednesday last the annual meeting of the Paulsen Club, of this City, took place, on which occasion the following officers were elected to preside over its affairs for the ensuing season: President, EUGENE BREUZINGER; Vice-President, D. WATERMAN; Secretary, F. HALLERBACH; Treasurer, Mr. WALLACH. On Wednesday evening next, Mr. BORCH, the noted German blindfold player, will attempt the difficult mental feat of playing ten games simultaneously, without seeing the men or boards. The games will be played at the rooms of the Paulsen Club, No. 186 Bowery, near Stanton-street, and on this occasion all chess players are invited to visit the rooms of the Club. The contestants against Mr. BORCH will be selected at the rooms at 8 P. M., from among those present. On Saturday last, the following officers were elected at the annual meeting of the Brooklyn Club: President, F. PERRIN; Vice-President, E. MATHEWS; Secretary, Capt. RAYMOND; Treasurer, G. BAXTER; Tournament Committee, Messrs. THOMPSON, RAYMOND and HORNER. The Club tournament will commence next month, at their new rooms. Matches are to take place this season between the New-York, Brooklyn and Paulsen Clubs, which bid fair to be very interesting chess events.

PRESENTATIONS.—On Monday evening last, a handsome sword was presented to Capt. HENRY A. HOWLAND, of Company G, Twenty-second regiment, N. G. S. N. Y., at the armory in Fourteenth-street, by the members of his company, as a token of the high esteem in which he is held by his command. The presentation speech was made by the Secretary, Mr. JOSEPH P. JARDINE, on behalf of the company, to which the Captain handsomely replied. Sergt. BAKER and Private F. T. JOHNSON, who acted as Commissaries of the Company during the Pennsylvania campaign, were also the recipients of gifts, consisting of a large steel plate engraving to the former, and a photograph album to the latter.

On the same evening, the First regiment New-York Cavalry assembled at the Seventh-avenue Arsenal, and after inspection, were formed into a hollow square, and Gen. SPICER, on behalf of the members of Company C, presented Capt. KNEBEL with a handsome service of silver. Capt. KNEBEL responded appropriately. Adjutant P. DEVOY was then presented a silver pitcher by Lieut.-Col. MINTURN, on behalf of Companies C, G and K, the German companies of the regiment.

TESTIMONIAL BENEFIT TO "CUYP," THE CELEBRATED CRICKETER.—Eleven amateur English cricketers will play a match against sixteen American cricketers, on Wednesday and Thursday, on the St. George's Cricket Ground, Hoboken, on which occasion it is expected that every lover of the noble game of cricket will be present. Professionals are barred, and the game will be the most interesting one of the season. It is not generally known that, in the earlier years of the New-York Club, "Cuyp" was its main stay, and by whose services in bowling, a respectable show could be made against the St. George's Club.

TWO MEN KILLED.—Coroner COLLIN held an inquest yesterday on the bodies of two men, named WM. HART and JOHN COYLE, who died from injuries received by the fall of a scaffold, on the corner of Forty-ninth-street and Sixth-avenue. The deceased were on a rope scaffold, engaged in painting a house. Unfortunately, the knot in the rope at one end of the staging gave way and precipitated the men to the ground, from about the third story. They were both so much injured that they died a few hours after. HART was a native of England, aged 39 years; COYLE was 22 years old, and a native of this City.

THE MOZART AND TAMMANY COALITION.—The division of the spoils between the two factions have been agreed upon, the bond signed and sealed. It is as follows: *For Mozart*—Surrogate, Register, one Justice Superior Court, Judge Common Pleas, Judge Marine Court, nine Assemblymen. *For Tammany*—Justice Supreme Court, one Justice Superior Court, Supervisor, Mayor, Recorder, eight Assemblymen. This is the same division as, some days since, it was announced in the TIMES would be made. It is considered a fair arrangement, and was amicably concluded upon.

THE COLORED ORPHAN ASYLUM.—Elsewhere will be found an appeal in behalf of the Colored Orphan Asylum, which was destroyed by the mob on Monday of Riot week. Everything the building contained was lost, and the entire loss on building and property amounts to $80,000. The children, some 230, are now at Blackwell's Island; they are as well cared for as possible, but the Society appeal for money, clothing or food. Reference to the appeal, which certainly will not be allowed to go unanswered, will show where these can be sent.

ELECTION OF DIRECTORS, ERIE RAILROAD COMPANY.—At an election held yesterday for Directors of the Erie Railroad Company, the following were unanimously elected:—Samuel Marsh, Daniel Drew, John Arnot William B. Skidmore, Cornelius Vanderbilt, Robert H. Berdell, Dudley S. Gregory, Ralph Mead, Nathaniel Marsh, Ambrose E. Murray, William Evans, J. C. Bancroft Davis, D. A. Cushman, Alexander S. Diven, Thomas W. Gale, Isaac N. Phelps, Horatio N. Otis.

THE MAYORALTY.—Already one candidate is in the field, placed there by the Constitutional Union General Committee, which met at the Sinclair House. All Wards, save the Fifth and Sixteenth, were represented. The State ticket, headed by Mr. ST. JOHN, was nominated, and then C. GODFREY GUNTHER, Esq., was, by resolution, declared the candidate for Mayor.

SCULLING MATCH.—A sculling match at Hamilton Ferry, Brooklyn, 17 feet working boats, took place at 2 o'clock yesterday afternoon, to pull around Governor's Island, for $50 a side, and was won by SAMUEL G. NOYES, late of Newburgh, one of WARD'S pupils; time, 20 minutes. The losing boat was pulled by RICHARD CORNELL, of Brooklyn. His arm giving out, he gave up the race.

BROOKLYN NEWS.

THE LATE ATTEMPT TO BREAK JAIL.—The attempt to break jail on Monday night, as has since transpired, was a regular plot laid by some of the worst characters now imprisoned and awaiting trial for various offences. A man named SPENCER, who is charged with counterfeiting, is supposed to be the leader. Preparations had long since been made to overpower the keeper on the first opportunity that presented itself, break off the lock, or take the key and open the gate leading to the corridor, and when once in the yard to scale the fence and escape. Some fifty prisoners are confined on the corridor where the outbreak occurred, many of them desperate characters. All were in the secret, having communicated with such other through the sewer pipes which run from one cell to the other. POWERS, McGARVY and SPENCER made the assault on the keeper as soon as he opened the cell door to admit another prisoner. It was their intention to disable, if not to kill him. One of the party struck him with a bar of iron, and another attempted to choke him, by drawing a handkerchief across his neck. The handkerchief not being strong enough for the purpose, broke, and the keeper, although nearly senseless, managed to seek safety in the cell his assailants had just vacated. MAY had taken the key of the outer gate from him, and also the keys of the cells. MAY then locked him in, and proceeded to release the other prisoners. A few colored men and boys refused to come out of their cells or to take any part in the master IGNATZ RYTZKY, condemned for the murder of SIGISMUND FELLNER, the diamond merchant, also remained in his quarters, declining to aid the mutineers, but instead, succeeded in saving the keeper's life, and preventing the prisoners from escaping, by informing them that the jail was surrounded by policemen—that every passage outside was guarded,—and that it would be useless for them to get beyond the walls. One policeman having accidentally made his appearance at the gate, rendered RATZKY'S statement plausible, and the prisoners at once desisted. Had they known that there was no person there except that solitary policeman, they might have easily accomplished their purpose. After some delay several officers arrived, and the door being opened with a duplicate key, the imprisoned jailor was released, and the prisoners were confined in closer and more secure quarters. Mr. ISAAC MESSEROLE, the keeper, was found to be seriously injured. Dr. VAN ZANDT was called to his aid, and bound up his wounds. He will doubtless recover, although he will necessarily be confined to his house for some time. The District Attorney intends to draw up new indictments against the ringleaders of the revolt.

KING'S COUNTY BOARD OF SUPERVISORS.—The Board met yesterday afternoon and held a short session. Several reports were presented—one confirming the contract for the carpenter work of the new Court-house to Messrs. CLOSE & MILLER, for $1,800. A resolution was adopted directing the Volunteer Relief Committee to pay $2 weekly to every wounded or disabled soldier who may have been honorably discharged, provided he was a resident of Kings County at the time of his enlistment, whether he belonged to a regiment raised in Brooklyn or elsewhere. The following bills for military expenses were presented and ordered to be paid: Seventieth regiment, for services from July 29 to Sept. 18, 1863, $24,545 44; Thirteenth regiment, for services from Aug. 18 to Sept. 7, $7,118 68; Sixteenth regiment, $33,009. The County Treasurer was directed to pay the several sums to the Colonels of the different regiments.

Proof of Title in Actions of Trover.

SUPERIOR COURT—GENERAL TERM.

Before a Full Bench.

Calvin Huntington vs. Thomas and Charles Douglas.—This was an action of trover, to recover damages for the alleged conversion of a lot hardware which the defendants sold to the plaintiff for value, and cotemporaneously received from him, as bailees, to sell on his account. The instrument showed the sale and delivery of the property, its value, the price paid for it, it, and the conditions and terms of the bailment. The answer put in issue the ownership of the plaintiff, and the conversion by the defendants.

On the trial no attempt was made by the defendants to prove fraud, accident or mistake, to avoid the effect of the written instrument, but proof was offered to show that the defendants were not the owners of the property at the time of their conveyance to the plaintiff; and, further, that the money consideration for the conveyance was not to be paid to one Harlow Huntington, the creditor of the vendors, as the instrument expressed, but to themselves. The Court refused to admit such evidence, but gave the defendants' opportunity to prove that the consideration had never been paid.

The Court directed a verdict for the plaintiff, and the defendants appealed, claiming that to sustain the action, which in its nature was an action of trover at common law, the plaintiff must prove a title to the property, either general or special, with the right of its immediate possession, and a conversion by the defendants. This, it was claimed, they had not done.

The appeal was now argued and decision reserved.

Miller, Peet & Nichols for plaintiffs; Sylvester Lay and Thomas Nelson for defendants.

Notes of Prize Decisions.

UNITED STATES DISTRICT COURT.

Before Judge Betts.

The United States vs. The steamer Kate.—This vessel was captured on Aug. 1, 1863, off New-Inlet, N. C., by the steamers *Iroquois, Mount Vernon* and *Niphon*. No one appeared for the vessel in the cause. The proofs showed that the vessel was chased by the blockading squadron off Wilmington, and was driven ashore on July 12, where she was stripped of her lading, rigging and machinery by the rebels, and, being afterward found afloat, was captured by the squadron.

Vessel condemned and forfeited.

ON BOARD STEAMSHIP STAR OF THE SOUTH, NEW-YORK HARBOR, Oct. 13, 1863.

We, the undersigned, passengers on board steamer Star of the South, feeling a due sense of obligation toward the officers in command of the abovementioned steamer, do hereby tender to Capt. Woodhull and officers, our thanks for the masterly manner in which we have been piloted over the mighty deep, and in safety brought to the port of our destination. To all the officers, we would hereby return our thanks, for the kindness and affability which we have always received at their hands, and who have, through wind and wave, always been ready to contribute to our comfort. To the purser, Mr. Burke, we are under obligations for the kind manner in which he has looked after our welfare, amusement and happiness, his experience of many years having made him an adept in the art. Of Mr. Simpson, the Chief Engineer, we can only say, that he is an expert engineer, and the life of all around him. In taking our leave of all, we can indulge in no better wish than that it may be our lot, if ever again we trust our lives over the treacherous deep, to be under their care and guidance.

Brig.-Gen. NICKERSON, President.

CHARLES STICKNEY, N. O. C. and G. W. R. R., Sec'y., and 22 others.

The bark Meg Merriles, Capt. Dye, before reported in distress at St. Georges, Bermuda, sailed from Algoa Bay for New-York July 23, with a cargo of wool. Had fair weather until Sept. 11, when she fell in with a tremendous hurricane; hove to 13 hours under a small piece of sail lashed to the weather mizzen rigging; a high cross sea struck the ship and broke on board, washing away all the crew, three of whom were drowned: Antonio Francisco, the cook; Robert Russell, a seaman, and Alfred Cuba, a boy. After pumping all night had 5½ feet of water in the well. The main and mizzen masts being gone, got up a jury mast, and arrived at Bermuda Sept. 18.

The French frigate Gurriere, having discharged her powder at Ellis Island, has proceeded to the navy-yard at Brooklyn. She is taking out her guns to go in the dry dock.

The steamer R. Donaldson, recently ashore on Hog's Back, Hell Gate, was got off and towed into Hallet's Cove.
